

# CONTENTS

Abstract	1
Introduction	1
Acknowledgments	1
Background	1
Chernobyl nuclear powerplant	1
Commercial satellite image data	2
Data acquisition and processing procedures	2
Image products and interpretations	4
Conclusions	18
References	18
Appendix. Digital values of the piecewise linear contrast stretches applied to the April 29, 1986, Thematic Mapper data	19

## FIGURES

1. Sketch map showing location and layout of Chernobyl nuclear power-plant 2
2. Plot showing spectral band placement for Landsat Thematic Mapper and SPOT high-resolution visible sensors 3
3. Image data acquired in each of the Thematic Mapper spectral bands on April 29, 1986 5
4. Color-composite image of Thematic Mapper quarter-scene showing regional view of the Chernobyl site on April 29, 1986 (spectral bands 4,3,2) 6
5. Color-composite image of Thematic Mapper quarter-scene showing regional view of the Chernobyl site on April 29, 1986 (spectral bands 7,4,2) 7
6. Color-composite image of Thematic Mapper spectral bands 7,4,2 acquired on April 29, 1986 8
7. Plot showing Thematic Mapper spectral bands superimposed on radiant emission spectra of selected objects 9
8. Plot showing brightness values of ground features in Thematic Mapper data of April 29, 1986 10
9. Color-composite image of Thematic Mapper spectral bands 7,4,2 acquired on June 6, 1985 11
10. Color-composite image of Thematic Mapper spectral bands 7,4,2 acquired on April 22, 1986 12
11. Color-composite image of Thematic Mapper spectral bands 7,4,2 acquired on May 8, 1986 13
12. Images of Thematic Mapper band 6 (thermal band) for the four dates studied 14
13. Images showing cooling pond thermal patterns from Thematic Mapper band 6, color-coded relative to the adjacent river, for each of three dates 15
14. SPOT high-resolution visible panchromatic image acquired on May 1, 1986 16
15. Color-composite image of Thematic Mapper spectral bands 7,4,2 with the spatial enhancement of the SPOT high-resolution visible panchromatic band 17

## TABLE

1. Characteristics of the Landsat Thematic Mapper (TM) and SPOT high-resolution visible (HRV) sensors 3
