

1.	INTRODUCTION	1
2.	HWR EVOLUTION:	2
2.1.	General background	2
2.2.	Heavy water moderated, heavy water cooled reactor	7
2.3.	Genealogy of boiling light water, heavy water moderated power reactors	12
2.4.	Heavy water moderated, organic cooled reactor	14
2.5.	Genealogy of pressure vessel HWRs	14
2.6.	Genealogy of heavy water moderated, gas cooled reactors	15
2.7.	Summary	15
3.	HWRs	16
3.1.	moderated) characteristics	16
3.2.	moderated reactors	55
3.3.	77
3.4.	Characteristics of heavy water moderated, gas cooled reactors ...	99
3.5.	Unique features of HWR technology	113
4.	ECONOMICS OF HWRs	153
4.1.	153
4.2.	Economics of HWRs	155
4.3.	Factors influencing capital costs	155
4.4.	O&M	159
4.5.	Factors influencing fuel costs	160
4.6.	160
5.	SAFETY ASPECTS OF HWRs	161
5.1.	Introduction	161
5.2.	Design characteristics of current HWRs related to safety	161
5.3.	Behaviour of current HWRs in postulated accidents	198
5.4.	Safety enhancements under way for current generation HWRs ...	256
5.5.	HWRs over the next ten years	292

5.6.	Safety enhancement options for next generation HWRs (ten to twenty years)	302
5.7.	Options beyond twenty years	309
5.8.	Conclusions	319
6.	HWR FUEL CYCLES	320
6.1.	The natural uranium fuel cycle	323
6.2.	HWR fuel cycle flexibility	371
6.3.	Advanced HWR fuel designs	381
6.4.	SEU and recycled uranium	410
6.5.	HWR/PWR synergistic fuel cycles	451
6.6.	HWR MOX with plutonium from spent HWR natural uranium fuel	492
6.7.	HWR MOX fuel for ex-weapons plutonium dispositioning	494
6.8.	Plutonium annihilation	502
6.9.	Thorium	508
6.10.	HWR/FBR synergistic fuel cycles	540
6.11.	Summary of HWR fuel cycle strategies and technology developments required	541
7.	ENVIRONMENTAL CONSIDERATIONS	546
7.1.	Introduction	546
7.2.	Status and evolution: Design and operation	548
7.3.	Future directions and improvements	568
7.4.	Conclusions	573
8.	VISION OF ADVANCED HWR DESIGNS	575
8.1.	Introduction	575
8.2.	Economic vision	577
8.3.	Safety vision	580
8.4.	Vision of sustainability	583
8.5.	Concepts under development	584
8.6.	The Indian AHWR	600
8.7.	The HWR 1000 ultimate safe gas cooled reactor	617
8.8.	The next generation of CANDU	622
8.9.	Conclusions	647

APPENDIX: PARAMETERS OF THE PRINCIPAL TYPES OF HWR . . 649
