

# CONTENTS

1.	INTRODUCTION .....	1
1.1.	Background .....	1
1.2.	Objective .....	2
1.3.	Scope .....	2
1.4.	Structure.. .....	3
2.	THE OIL AND GAS INDUSTRY .....	4
2.1.	Industry structure .....	4
2.2.	Rigs and drilling methods .....	5
2.2.1.	Rigs.. .....	5
2.2.2.	Drilling and well construction methods .....	6
2.2.3.	Well completions, development and workovers .....	9
2.2.4.	Topside plant and downstream equipment .....	10
3.	SEALED RADIATION SOURCES AND RADIATION GENERATORS IN THE OIL AND GAS INDUSTRY .....	12
3.1.	Industrial radiography .....	12
3.2.	Installed gauges .....	13
3.3.	Mobile gauging equipment and articles .....	14
3.4.	Welllogging .....	17
3.4.1.	Logging tools and techniques .....	17
3.4.2.	Additional uses of sources .....	24
3.5.	Safety of sealed sources .....	24
3.5.1.	Sealed sources .....	24
3.5.2.	Radiation safety in normal working conditions .....	25
3.5.3.	High exposure and overexposure to radiation sources .....	28
3.5.4.	Lost or misplaced sources .....	28
3.5.5.]	Retrieval of disconnected sources from a well .....	29
3.5.6.	Physical damage to sources, containers and other equipment .....	31
3.5.7.	Site emergencies, natural disasters and strife .....	35
3.6.	Waste management of sealed sources .....	35
3.6.1.	Introduction .....	35
3.6.2.	Waste minimization strategies .....	36

3.6.3.	Waste inventories and characterization .....	36
3.6.4.	Waste storage facilities .....	36
3.6.5.	Predisposal management of radioactive waste .....	37
3.6.6.	Disposal methods .....	37
3.6.7.	Transport of radioactive waste .....	37
3.6.8.	Record keeping and reporting .....	38
4.	UNSEALED RADIOACTIVE SUBSTANCES IN THE OIL AND GAS INDUSTRY .....	38
4.1.	Radiotracer and marker studies .....	38
4.1.1.	Unsealed radioactive materials used as tracers and markers .....	38
4.1.2.	Examples of the upstream use of radiotracers and markers .....	39
4.1.3.	Examples of the downstream use of radiotracers and markers .....	41
4.2.	Safety of unsealed radioactive materials .....	42
4.2.1.	Preparation of radiotracers .....	42
4.2.2.	Work with radiotracers .....	42
4.2.3.	Accidents involving radiotracer material .....	45
4.3.	Waste management of unsealed sources and materials .....	46
4.3.1.	Introduction .....	46
4.3.2.	Waste minimization strategies .....	47
4.3.3.	Waste inventories and characterization .....	48
4.3.4.	Waste storage facilities .....	48
4.3.5.	Predisposal management of radioactive waste .....	48
4.3.6.	Disposal methods .....	49
4.3.7.	Transport of radioactive waste .....	49
4.3.8.	Record keeping and reporting .....	49
5.	NORM IN THE OIL AND GAS INDUSTRY .....	50
5.1.	Introduction .....	50
5.2.	Origin and radiological characteristics of NORM .....	50
5.3.	Main forms of appearance of NORM .....	54
5.4.	Radionuclide concentrations in NORM .....	56
5.5.	Radiation protection aspects of NORM .....	56
5.5.1.	External exposure .....	57
5.5.2.	Internal exposure .....	58
5.5.3.	Decontamination of plant and equipment .....	60

5.5.4.	Practical radiation protection measures .....	62
5.6.	Waste management considerations with respect to NORM ..	64
5.6.1.	Introduction .....	64
5.6.2.	Wastes from the decontamination of plant and equipment .....	65
5.6.3.	Waste management strategy and programmes .....	66
5.6.4.	Characteristics of NORM wastes in the oil and gas industry .....	68
5.6.5.	Disposal methods .....	69
6.	DECOMMISSIONING OF OIL AND GAS PRODUCTION FACILITIES .....	81
6.1.	Introduction .....	81
6.2.	Strategy .....	83
6.3.	Key issues and activities .....	83
7.	ORGANIZATIONAL RESPONSIBILITIES AND TRAINING IN THE OIL AND GAS INDUSTRY. ....	84
7.1.	Introduction .....	84
7.2.	Regulatory bodies .....	85
7.3.	The operating organization (operator) .....	86
7.4.	Service companies .....	87
7.5.	Workers .....	88
APPENDIX I:	RADIATION MONITORING IN THE WORKPLACE .....	89
APPENDIX II:	METHODS FOR THE DECONTAMINATION OF PLANT AND EQUIPMENT .....	102
APPENDIX III:	TRAINING COURSES FOR PERSONS WORKING WITH IONIZING RADIATION IN THE OIL AND GAS INDUSTRY .....	108
APPENDIX IV:	METHODS OF RADIOACTIVE WASTE CHARACTERIZATION .....	113
REFERENCES	.....	117
DEFINITIONS	.....	125
CONTRIBUTORS TO DRAFTING AND REVIEW	.....	129
