

# CONTENTS

CHAPTER	PAGE
I. Cams and Their Applications.....	1
II. Intermittent Motions from Ratchet Gearing.....	28
III. Intermittent Motions from Gears and Cams.....	67
IV. Tripping or Stop Mechanisms.....	118
V. Electrical Tripping Mechanisms.....	148
VI. Reversing Mechanisms for Rotating Parts.....	161
VII. Overload Relief Mechanisms and Automatic Safe- guards .....	198
VIII. Interlocking Devices.....	229
IX. Driving Mechanisms for Reciprocating Parts.....	249
X. Quick-Return Motions for Tool Slides.....	300
XI. Speed-Changing Mechanisms .....	310
XII. Differential Motions.....	363
XIII. Straight-Line Motions.....	391
XIV. Miscellaneous Mechanical Movements.....	398
XV. Hydraulic Transmissions for Machine Tools.....	433
XVI. Automatic Feeding Mechanisms.....	447
XVII. Design of Automatic Feeding Mechanisms.....	471
XVIII. Hopper Design for Automatic Machinery.....	483
XIX. Magazine Feeding Attachments for Machine Tools.....	495
XX. Design of Magazine Carriers and Slides.....	507
