

Contents

1. Introduction	4
1.1 Introduction to Radioactive Waste Management	4
1.2 Management of Spent Fuel and High Level Waste	4
1.3 Research Progress at CAB	7
1.4 Background for Sintering and Phase Separation	7
1.5 Phase Separation and its Interaction with Sintering	8
2. Experimental Methods	10
3. Results and Discusión	12
3.1 Glass Powder Characterization	12
3.2 Compacts Characterization	13
3.3 Sintering Kinetics	13
3.4 Leaching	17
4. Conclusions	20
5. Acknowledgements	21
6. References	22
