

## Table of Contents

DEDICATION.....	ii
ACKNOWLEDGMENTS.....	iv
ABSTRACT.....	v

### CHAPTER 1: INTRODUCTION TO THE LOW POWER RESEARCH REACTOR (LPRR)

1.1 Introduction.....	18
1.2 Reactor Description.....	19
1.3 Objective and Motivation.....	22
1.4 Dose Limits.....	22
1.5 Shielding Design Criteria.....	23

### CHAPTER 2: CALCULATION CODES AND MATERIALS SHIELDING

2.1 Introduction.....	25
2.2 Computer Codes.....	25
2.2.1 ORIGEN v2.1.....	25
2.2.2 MERCURAD.....	25
2.2.3 MCNP.....	25
2.3 Radiation Shielding.....	26
2.3.1 Neutron Shielding.....	27
2.3.2 Gamma Shielding.....	27
2.4 Shielding Materials.....	29
2.4.1 Water.....	29
2.4.2 Polyboron.....	29
2.4.3 Lead.....	29
2.4.4 Lead Glass.....	30
2.4.5 Tungsten.....	31
2.4.6 Ordinary Concrete.....	32
2.4.7 Heavy Weight Concrete.....	33

### CHAPTER 3: EXPERIMENTS IN RA-6 REACTOR FOR ESTIMATION OF LPRR POOL TOP RADIOLOGICAL CONDITIONS

3.1 Introduction.....	36
3.2 Experimental Description.....	37
3.3 Results.....	39
3.3.1 Initial Background Measurements.....	39
3.3.2 Water Activity Samples.....	39
3.4 Air measurement.....	40
3.5 Theoretical models.....	40
3.5.1 Initial Dose Rate.....	40

3.5.2 Ar-41 concentration in water and air.....	40
3.6 Theoretical Calculations and Experiment Measurements.....	45
3.7 Internal Dose Calculation.....	46

#### **CHAPTER 4: INDIVIDUAL DOSES RECEIVED BY RIYADH POPULATION DUE TO LPRR NORMAL OPERATION**

4.1 Introduction:.....	48
4.2 Dispersion of effluent:.....	49
4.3 Screening Calculation Concept:.....	50
4.4 Building Considerations:.....	50
4.5 Results and Analysis:.....	53
4.5.1 Dispersion in the lee of in isolated point source:.....	53

#### **CHAPTER 5: TRANSPORT CASK AND HOT CELL SHIELDING DESIGN**

5.1 Introduction:.....	58
5.2 Cask/Hot Cell calculation.....	59
5.2.1 Source term.....	59
5.2.2. Cask Dose Rate.....	62
5.2.3. Hot Cell Shielding:.....	64

#### **CHAPTER 6: NEUTRON SOURCE SHIELDING CALCULATIONS**

6.1 Introduction.....	68
6.2 Shielding Calculations.....	69
6.2.1 Source.....	69
6.2.2 Geometry.....	70
6.2.3 Results and comparison with Measurements.....	71
6.3 Verification of Transport Conditions.....	72

#### **CHAPTER 7: SHIELDING CALCULATION OF EXPERIMENTAL BUNKER**

7.1 Introduction.....	75
7.2 Calculation.....	77
7.2.1 Core Model.....	77
7.2.2 Different Materials Shielding Calculations:.....	78
7.2.3 Complete Bunker Model.....	81
7.2.4 Shielding verification for Experiments and Samples.....	85
7.2.5 Camera dose Calculation.....	86

#### **CHAPTER 8: CONCLUSION..... 87**

REFERENCES.....	91
APPENDICES.....	93
APPENDIX I: Argon Activation.....	94

APPENDIX II: Description of the Gaussian Plume Model .....	96
APPENDIX III: Reactivities Results of Homogeneous Core Model.....	100
