

TABLE OF CONTENTS

910119	Stiffness Parameters for Vehicle Collision Analysis 1 Gustav A. Nystrom, Garrison Kost, and Stephen M. Werner Failure Analysis Associates, Inc.	1
910120	Rear Stiffness Coefficients Derived From Barrier Test Data 9 Ronald L. Woolley, Charles E. Strother, and Michael B. James Collision Safety Engineering Orem, UT	9
910121	Missing Vehicle Algorithm (OLDMISS) Reformulation 25 Aloke K. Prasad Transportation Research Center of Ohio, Inc. East Liberty, OH	25
910122	Light Truck Inertial Properties 37 A. M. Curzon, N. K. Cooperrider, and D. A. Limbert Failure Analysis Associates, Inc.	37
910123	Linear and Rotational Momentum for Computing Impact Speeds In Two-Car Collisions (LARM) 49 Rudy Limpert and Dennis F. Andrews Prosource Software Provo, UT	49
910124	A Two-Dimensional Model of a "Falling" Vehicle 69 Garrison Kost, Gustav A. Nystrom, Greg Olsen, and Angela Steffen Failure Analysis Associates, Inc.	69
910125	The Calculation of Motorcycle Speeds from Sliding Distances 77 Richard F. Lambourn Metropolitan Police Forensic Science Laboratory London, UK	77
910126	Heavy Truck Deceleration Rates as a Function of Brake Adjustment 91 Ronald B. Heusser National Transportation Safety Board Seattle, WA	91
910127	Determination of Collision Configurations from Vehicle Deformation Patterns 109 Masaru Ueyama, Hiroshi Makishita, and Shuji Saito Mechanical Engineering Section National Research Institute of Police Science	109
910128	Photographic Documentation and Analysis in Vehicle Accident Reconstruction 125 Dror Kopernik and Crispin Hales Triodyne Inc. Niles, IL	125
910366	Computer Animation — Admissibility In the Courtroom 143 Ian S. Jones, David W. Muir, and Stephen W. Groo Forensic Technologies International, Inc.	143

910367	An Application of Computer Graphics for Vehicle Accident Reconstruction	153
	Hiroshi Makishita, Masaru Ueyama, and Shuji Saitoh Mechanical Engineering Section National Research Institute of Police Science	
910368	Computer Accident Simulation — Pretty Pictures and the Real World	163
	Ruedy W. Leeman, Douglas R. Brown, Rickey L. Stansifer, and Donald B. Uldricks S.E.A., Inc. Columbus, OH Dennis A. Guenther The Ohio State Univ. Columbus, OH	
910369	Engineering Visualization of Vehicle Accidents: Data Sources and Methods of Production	171
	Kent F. Martin and James A. Banister Applied Visual Computing, Inc. Robert L. Piziali Failure Analysis Associates, Inc.	
910370	Computer-Aided Accident Reconstruction: Its Role In Court	179
	Thomas L. Bohan Medical & Technical Consultants Portland, ME	
910118	Determination of Vehicle Crush from Two Photographs and the Use of 3D Displacement Vectors In Accident Reconstruction	191
	Ronald L. Woolley, Karen A. White, Alan F. Asay, and Jon E. Bready Collision Safety Engineering Orem, UT	

Woolley
