

TABLE OF CONTENTS

950131	Using ATB in Collision Reconstruction	1
	Wesley D. Grimes Collision Engineering Associates, Inc.	
950133	Pickup Truck Rollover Accident Reconstruction Using the ATB Model	11
	Huaining Cheng and Annette L. Rizer Systems Research Labs. Louise A. Obergefell Department of the Air Force	
950134	ATB Model Simulation of a Rollover Accident with Occupant Ejection	21
	Huaining Cheng and Annette L. Rizer Systems Research Labs. Louise A. Obergefell Department of the Air Force	
950135	The Technique of Uncertainty Analysis as Applied to the Momentum Equation for Accident Reconstruction	33
	Renard G. Tubergen Purdue Univ.	
950136	Analysis of Acceleration in Passenger Cars and Heavy Trucks	39
	Charles L. Proctor, II University of Florida Wesley D. Grimes Collision Engineering Associates, Inc. Donald J. Fournier, Jr. Gould, Lewis and Proctor John Rigol, Jr. (Retired) and Michael G. Sunseri Louisiana State Police	<i>accel</i>
950137	Evaluation of Vehicle Velocity Predictions Using the Critical Speed Formula	81
	Charles P. Dickerson, Mark W. Arndt, Stephen M. Arndt, and Gregory A. Mowry Arndt & Associates, Ltd.	
950138	Hydroplaning and Accident Reconstruction	91
	Francis Navin University of British Columbia	
950139	Deceleration Factors on Off-Road Surfaces Applicable for Accident Reconstruction	99
	Steven R. Christoffersen, Marlan J. Jarzombek, Jerry G. Wallingford, William Greenlees, and Thomas P. Minihan Verifact Corp.	<i>de sac</i>

950350	Field Investigation Safety with Inflatable Restraint Systems 115 Richard M. Downs, Jr. National Transportation Safety Board David P. Dahle Morton International, Inc. Dean M. Esterberg TRW Vehicle Safety Systems Scott Baker State of California-Office of State Fire Marshal
950351	The Use of a High Resolution Accident Data Recorder in the Field 127 William F. Fincham University of London Armin Kast Sachverständigenbüro Kast Richard F. Lambourn Metropolitan Police Forensic Science Lab.
950352	Data and Methods for Estimating the Severity of Minor Impacts 139 Mark N. Bailey, Bing C. Wong, and Jonathan M. Lawrence MacInnis Engineering Associates Ltd.
950353	ABS and Relative Crash Risk Under Different Roadway, Weather, and Other Conditions 177 Leonard Evans General Motors Corp.
skids 2 950354	Speed from Skids: A Modern Approach 189 James A. Neptune, James E. Flynn, Philip A. Chavez, and Howard W. Underwood J2 Engineering, Inc.
950355	Nonconservation of Momentum During Impact 207 Albert G. Fonda Fonda Engineering Associates
inertia 2 950356	Developments in Vehicle Center of Gravity and Inertial Parameter Estimation and Measurement 219 Ronald A. Bixel and Gary J. Heydinger S.E.A., Inc. Nicholas J. Durisek and Dennis A. Guenther The Ohio State Univ. S. Jay Novak Ford Motor Co.
950357	A New Application of Camera Reverse Projection in Reconstructing Old Accidents 231 Bruce W. Main and Eric A. Knopf Miller Engineering, Inc.
950358	Impact Analysis Based Upon the CRASH3 Damage Algorithm 243 James A. Neptune, James E. Flynn, Howard W. Underwood, and Philip A. Chavez J2 Engineering, Inc.

950359	Sun Position and Twilight Times for Driver Visibility Assessment	263
	Duane D. MacInnis and Peter B. Williamson MacInnis Engineering Associates Ltd. Geoffrey P. Nielsen	
950360	Applications of NHTSA's Vehicle Parameter Database	289
	Catherine A. McCullough and William T. Hollowell National Highway Traffic Safety Administration Peter Battisti Volpe National Transportation Systems Center	
950361	The Use of Electronic Survey Equipment in the Creation of Accident Scene Diagrams	299
	Donald F. Rudny and David W. Sallmann Rudny & Sallmann Engineering, Ltd.	
951065	Motor Vehicle Mass Property Envelopes	311
	Mark W. Arndt, Charles P. Dickerson, Gregory A. Mowry, Stephen M. Arndt, and Steven C. Shapiro Arndt & Associates, Ltd.	
950308	An Overview of the HVE Vehicle Model	319
	Terry D. Day Engineering Dynamics Corp.	
950659	An Overview of the HVE Human Model	333
	Terry D. Day Engineering Dynamics Corp.
