

## CONTENTS

<b>Preface .....</b>	<b>V</b>
<b>List of Contributors .....</b>	<b>VII</b>
<b>CHAPTER 1. MATHEMATICAL MODELS FOR THE INTERPRETATION OF ENVIRONMENTAL RADIOISOTOPES IN GROUNDWATER SYSTEMS .....</b>	<b>1</b>
A. Zuber	
<b>Introduction .....</b>	<b>1</b>
Principles of the tracer method .....	<b>3</b>
Some basic concepts and the mathematical tool .....	<b>8</b>
Models and their hydrological significance .....	<b>13</b>
Dispersivity and the dispersion parameter .....	<b>22</b>
<b>Infiltration studies .....</b>	<b>24</b>
Stagnant water in the saturated zone .....	<b>27</b>
The movement of delayed tracers .....	<b>29</b>
Cases of constant tracer input .....	<b>31</b>
Variable tracer input .....	<b>33</b>
Combined interpretation .....	<b>48</b>
Concluding remarks .....	<b>54</b>
References .....	<b>55</b>
<b>CHAPTER 2. ISOTOPES IN CLOUD PHYSICS: MULTIPHASE AND MULTISTAGE CONDENSATION PROCESSES .....</b>	<b>61</b>
J. Jouzel	
<b>Introduction .....</b>	<b>61</b>
Basic principles .....	<b>63</b>
Isotopic effects during growth of individual elements .....	<b>66</b>
Isotopic cloud models .....	<b>70</b>
Sampling of water vapour and condensed phases in the atmosphere .....	<b>85</b>
A brief survey of isotopic studies in rain and snow .....	<b>87</b>
The study of hailstone growth mechanisms by mean of isotopic analyses .....	<b>89</b>
Conclusion .....	<b>104</b>
References .....	<b>105</b>
<b>CHAPTER 3. ENVIRONMENTAL ISOTOPES IN LAKE STUDIES.....</b>	<b>113</b>
R. Gonfiantini	
<b>Introduction .....</b>	<b>113</b>
Isotopic fractionations during evaporation of water .....	<b>114</b>
Water balance studies of lakes .....	<b>130</b>
Water mixing studies .....	<b>146</b>
Miscellaneous studies .....	<b>161</b>
References .....	<b>163</b>

CHAPTER 4. ENVIRONMENTAL ISOTOPE AND ANTHROPOGENIC TRACERS OF RECENT LAKE SEDIMENTATION .....	169
W.R. Schell and R.S. Barnes	
Introduction .....	169
<b>Biogeochemical cycling in lakes</b> .....	<b>169</b>
Environmental isotope and element tracers .....	171
Applications .....	185
Summary and conclusions .....	201
References .....	202
CHAPTER 5. STABLE ISOTOPE GEOCHEMISTRY OF TRAVERTINES .....	207
B. Turi	
Introduction .....	207
Mineralogy, petrology and physical properties of travertines .....	208
Geochemical conditions controlling travertine deposition .....	209
$^{13}\text{C}/^{12}\text{C}$ and $^{18}\text{O}/^{16}\text{O}$ variations in travertines .....	211
Isotopic fractionations in travertine formation .....	215
<b>Diagnostic effects</b> .....	<b>222</b>
Radiocarbon dating of travertines .....	225
Sulphur, strontium and lead isotopes .....	225
Summary and conclusions .....	233
References .....	235
CHAPTER 6. ISOTOPE GEOCHEMISTRY OF CARBONATES IN THE WEATH- ERING ZONE .....	239
W. Salomons and W.G. Mook	
Introduction .....	239
Isotopic composition of carbon and oxygen sources in the weathering zone .....	241
The formation of dissolved inorganic carbon .....	246
Reprecipitation processes in the weathering zone .....	251
Isotopic composition of carbonates in the weathering zone .....	256
Summary and conclusions .....	265
References .....	265
CHAPTER 7. GEOCHRONOLOGY AND ISOTOPIC GEOCHEMISTRY OF SPELEOTHEMS .....	271
H.P. Schwarcz	
The cave environment .....	271
Geochronology of speleothems: methods .....	275
Applications of geochronology of speleothems .....	282
Stable isotope geochemistry of speleothems .....	286
Conclusions .....	299
References .....	300
CHAPTER 8. OXYGEN AND HYDROGEN ISOTOPE GEOCHEMISTRY OF DEEP BASIN BRINES .....	305
Y.K. Kharaka and W.W. Carothers	
Introduction .....	305
Terms applied to subsurface waters .....	306
Isotopic composition of surface waters .....	307
Origin of water in deep basin brines .....	314
Modification of stable isotopes in deep basin waters .....	332

Other applications of stable isotopes of water .....	349
Summary .....	352
References .....	353
<b>CHAPTER 9. ISOTOPE EFFECTS OF NITROGEN IN THE SOIL AND BIOSPHERE</b> .....	<b>361</b>
H. Hübner	
<b>Introduction</b> .....	<b>361</b>
<b><sup>15</sup>N in the pedosphere</b> .....	<b>365</b>
<b>Isotope input in the pedosphere</b> .....	<b>369</b>
<b>Interpretation of isotopic variations of NO<sub>3</sub>-N in the pedosphere, groundwater, and surface waters</b> .....	<b>405</b>
Outlook .....	418
<b>References</b> .....	<b>419</b>
<b>CHAPTER 10. CHLORINE-36 IN THE TERRESTRIAL ENVIRONMENT</b> .....	<b>427</b>
H.W. Bentley, F.M. Phillips and S.N. Davis	
<b>Introduction</b> .....	<b>427</b>
<b>Natural production of <sup>36</sup>Cl</b> .....	<b>428</b>
<b>Studies of <sup>36</sup>Cl in the lithosphere</b> .....	<b>434</b>
<b>Dating saline sediments with <sup>36</sup>Cl</b> .....	<b>440</b>
<b>Dating old groundwater with <sup>36</sup>Cl</b> .....	<b>441</b>
<b>Atmospheric nuclear weapons testing <sup>36</sup>Cl as a hydrologic tracer</b> .....	<b>460</b>
<b>Referentes</b> .....	<b>475</b>
<b>CHAPTER 11. RADIOACTIVE NOBLE GASES IN THE TERRESTRIAL ENVIRONMENT</b> .....	<b>481</b>
T. Florkowski and K. Różanski	
<b>Introduction</b> .....	<b>481</b>
<b><sup>36</sup>Kr, <sup>81</sup>Kr</b> .....	<b>482</b>
<b><sup>81</sup>Kr</b> .....	<b>493</b>
<b><sup>39</sup>Ar and <sup>39</sup>Ar</b> .....	<b>494</b>
<b><sup>133</sup>Xe</b> .....	<b>501</b>
<b>References</b> .....	<b>502</b>
<b>CHAPTER 12. ISOTOPES AND FOOD</b> .....	<b>507</b>
C. Hillaire-Marcel	
<b>Introduction</b> .....	<b>507</b>
<b>Carbon and plants</b> .....	<b>507</b>
<b><sup>180</sup> and <sup>211</sup> in plants</b> .....	<b>525</b>
<b>The radioactive isotopes <sup>3</sup>H and <sup>14</sup>C</b> .....	<b>537</b>
<b>Other possible applications</b> .....	<b>539</b>
<b>Conclusions</b> .....	<b>543</b>
<b>References</b> .....	<b>544</b>
<b>Subject Index</b> .....	<b>549</b>
<b>Index of geographical names</b> .....	<b>555</b>
