

Physics and Application of Mesoscopic Josephson Junctions

Contents

Preface

Acknowledgements

Quasiclassical Approach to Andreev Modes and Phase Dependent Thermodynamics of SNS Junction	C. Ishii 1
Time-Dependent Bogoliubov-de Gennes Equations	R. Kümmel 19
Theories of Josephson Junctions without the Tunneling Hamiltonian	G. B. Arnold 39
Semiclassical Picture of Mesoscopic SNS Junctions	H. Ohta and T. Matsui 55
Current-Carrying Bound States in Superconducting Quantum Point Contacts	A. Furusaki 79
DC and AC Josephson Effects in Low and High-T _c Junctions P. F. Bagwell, R. A. Riedel, Li-Fu Chang, M. Hurd and S. Datta	97
Nonequilibrium Effects and Charge Transport in Ballistic Superconducting Weak Links in the Presence of a Microwave Field	U. Gunsenheimer 113

Theory of ac Josephson Effect and Noise in Superconducting Constrictions	D. V. Averin	135
Theory of Josephson Effects in d-Wave Superconductor Junctions	Y. Tanaka and S. Kashiwaya	155
High-T, SNS Junctions: A New Generation of Proximity-Coupled Josephson Devices	A. W. Kleinsasser	179
Coherent Transport in the Diffusive Regime in Mesoscopic Superconductor-Semiconductor-Superconductor (S/Sm/S) Junctions of Al/n-GaAs/Al	J. B. Hansen, J. Kutchinsky, R. Taboryski, O. Kuhn, C. B. Solensen, P. E. Lindelof, C. Schelde Jacobsen, A. Kristensen and J. L. Skov	197
Superconducting Transport in Superconductor-Semiconductor-Superconductor Junctions	H. Takayanagi	213
Transport in Mesoscopic Normal Metal-Superconductor Structures	H. Takayanagi and Vladimir N. Antonov	233
Transport and Noise Properties of Superconductor-constrictions-Superconductor Mesoscopic Devices	K. Hamasaki and A. Saito	247
Fluxoid-type Logic Circuits	K. Nakajima, Y. Mizugaki, T. Onomi and T. Yamashita	267
Digital Applications of Josephson Junctions	Marc J. Feldman	289
Single Electron Tunneling Devices	A. Kanda, K. Ishibashi, Y. Aoyagi and T. Sugano	305
