

CONTENTS

Chapter 1 provides basic information and summarises how to organise, plan and write a thesis or dissertation. The remaining chapters go into much greater detail on each topic; because each chapter can be read independently of the main text you will find repetition between them. Use what is helpful to you.

We recommend that you read Chapter 1 as a whole, and then use the rest of the book as a reference section.

Chapter 1

Enjoy Writing Your Science Thesis or Dissertation!	1
What are the Rules?	1
Thesis and Dissertation Templates	3
The Importance of Planning	3
Familiarise Yourself With the Appropriate Format and Style	3
Get Your Information into a Workable Form	3
