PREFACE	XVII
---------------	------

GETTING STARTED

CHAPTER 1

USING THIS BOOK	3
The Path of Least Resistance.....	.3
Something for Everyone4
For the Clueless	
For Beginning CGI/Perl Programmers4
For Intermediate CGI/Perl5
For CGI/Perl Experts5
The Big Picture	
Getting Started.....	
The Programs6
Appendices8
Prerequisites
Programming Ability9
.....	.9
Conventions Used in the Book.....	.10
Diversity.....	.11
Variable Names ..	.11

In Case of Trouble12
--------------------------	-----

CHAPTER 2

USING CGI AND PERL	15
Of Protocols and Programming Languages15
The Common Gateway Interface16

Getting Information From the Server	16
Sending Information to the Server	17
The Practical Extraction and Report Language	17
Regular Expressions	18
Ease of Learning	19
Portability	20
Wherever the Twain Shall Meet	20
Digging Deeper	21

CHAPTER 3
INSTALLING CGI PROGRAMS 23

Overview	23
A Few Assumptions	24
You Have Access to a Web Server	24
Perl Is Installed on Your Server	25
You Have Access to a CGI Directory	25
You Know How to Transfer Files to Your Web Server	25
Installing CGI Programs	26
Unix Servers	26
Windows Servers	27
MacOS Servers	28
Installing Required Files	28
Installing Support Files	28
Troubleshooting	29
“404 Not Found” Error	29
“403 Forbidden” Error	29
“500 Server Error” Error	29

THE PROGRAMS

CHAPTER 4
MANAGING FILES: FILESEEK.CGI 33

Features	33
Usage Guide	37
Creating a Page Header Template File	37
Creating a Page Footer Template File	40
Using the Program	40
Installation	42
Directory and File Setup	42
Configuration Variable Setup	43

The Program	4 ⁵
Configuration	45
Pulling in Required Files	46
Initializing Constants	47
.....	48
Searching for Files	51
Getting the Contents of a Directory	53
.....	54
Sorting the Files	56
Outputting the Results	58
.....	65
Ideas for Enhancements	6 ⁶

CHAPTER 5

GATHERING INPUT: FORMHANDLER.CGI	69
Features	69
Usage Guide	74
Using Form Configuration Variables	74
Creating a Form	81
Creating Template Files	85
Creating a Log Template File	86
Creating Email Template Files	87
Creating a Confirmation Template File	88
Creating a Missing Fields Template File	88
Bonus: Running a Mailing List	90
Adding Visitors to the List	91
Sending Messages to the List	93
Creating the Message Template	94
Installation	94
Directory and File Setup	94
Configuration Variable Setup	95
The Program	97
Configuration	98
Pulling in Required Files	98
Checking Access Rights	99
Preparing the Form Data	100
Checking for Required Fields	102
Initializing Date Variables	103

Processing Address Variables	104
Sending Form Results	107
Sending a Reply	112
Updating the Log File	115
Providing Feedback to the Visitor	119
Checking for a Valid Directory (Subroutine)	121
Reporting Error Messages (Subroutine)	122
Ideas for Enhancements	124

CHAPTER 6

SPREADING THE WORD: BROADCASTER.CGI127
Features	127
Usage Guide	133
Creating a Data File	133
	134
Using the Program	135
Installation	139
Directory and File Setup	139
	141
Configuration File Setup	142
The Program	145
Configuration	146
Initializing Variables and Output	147
Checking Security	148
Generating the File Selection Form	149
Generating the Field Selection Form	153
Generating the Sample Message Form	163
Sending the Messages	171
Generating the BODY Tag (Subroutine)	186
Displaying a List of Messages (Subroutine)	187
Displaying a Message (Subroutine)	188
Parsing a CSV Format Record (Subroutine)	189
Ideas for Enhancements	191

CHAPTER 7

DOING BUSINESS: WEBSHOP.CGI	193
Features	193
Usage Guide	197
Creating Database Files	199
Creating a Referring Page	205

Creating Templates.....	205
Creating Page Templates.....	208
Creating Email Message Templates.....	216
Installation.....	217
Directory and File Setup.....	218
Configuration Variable Setup.....	219
Configuration File Setup.....	220
The Program.....	223
Configuration.....	223
Pulling in Required Files.....	223
Loading the Configuration File.....	224
Checking for Expired Orders.....	225
Identifying the Visitor.....	226
Processing a Product Information Request.....	228
Processing a Product Purchase Request.....	229
Processing an Order Review Request.....	232
Processing an Invoice Request.....	232
Processing an Empty Cart Request.....	233
Processing a Checkout Request.....	234
Processing an Invalid Request.....	236
Creating a New User (Subroutine).....	236
Getting the Product Information (Subroutine).....	237
Updating the Order Expiration Time (Subroutine).....	239
Building the Table of Purchases (Subroutine).....	240
Parsing a Template File (Subroutine).....	250
Displaying an Error Message (Subroutine).....	255
Ideas for Enhancements.....	260
CHAPTER 8	
GETTING OPINIONS: FEEDBACK.CGI.....	263
Features.....	263
Feedback Features.....	264
FeedbackAdmin Features.....	267
Usage Guide.....	268
Creating the Feedback Input Page.....	269
Creating the Feedback Page.....	270
Creating an Archive Page.....	271
ID File.....	271
.....	272

Using Variable Tags in Template Files	272
Creating Page Templates	273
Creating Email Message Templates	277
Creating the Feedback Administration Page	278
Using FeedbackAdmin	279
Installation	282
Directory and File Setup	283
Configuration Variable Setup	283
Configuration File Setup	285
The Program: Feedback	290
Configuration	291
Initializing Constants	291
Pulling in Required Files	291
Parsing the Form	292
Reading the Configuration File	292
Getting and Formatting the Current Date and Time	292
Checking for Banned Hosts	293
Checking for Duplicate Entries	294
Checking for Required Fields	295
Checking for Censored Words	297
Checking for Prohibited HTML	
Processing the Message	300
Sending a Reply to the Visitor	305
Sending a Message the Administrator	305
.....	306
Updating the Log File	313
Displaying a Confirmation Page	314
ID (Subroutine)	315
Updating the Message ID File (Subroutine)	316
Displaying Errors (Subroutine)	316
Generating the Error Page Header (Subroutine)	323
Generating the Error Page Footer (Subroutine)	324
The Program: FeedbackAdmin	325
Configuration	325
Pulling in Required Files	325
Parsing the Form	326
Reading the Configuration File	326
Generating Command Forms	326

Approving Messages.....	336
Removing Messages..	340
Archiving Messages.....	341
Changing Passwords.....	345
Processing Invalid Commands.....	347
Updating the Banned Hosts File.....	347
Defining the Configuration Array (Subroutine).....	348
Generating an HTML Page Header (Subroutine).....	349
Adding a Message to the Feedback File (Subroutine).....	350
Archiving Messages by Month (Subroutine).....	351
Archiving Messages by Number (Subroutine).....	353
Administrator Authentication (Subroutine).....	355
Displaying Errors (Subroutine).....	356
Generating the Error Page Header (Subroutine).....	362
Generating the Error Page Footer (Subroutine).....	363
Ideas for Enhancements.....	363
CHAPTER 9	
KEEPING TRACK: PAGECONTROL.CGI.....	365
Features.....	365
Usage Guide.....	369
Accessing the Program.....	369
Setting Up Your Pages.....	371
Installation.....	375
Directory and File Setup.....	375
Configuration Variable Setup.....	376
The Program.....	380
Configuration.....	380
Pulling in Required Files.....	381
Initializing Constants.....	382
Checking Authentication.....	383
Determining the Requested Page.....	383
Checking for a Special Request.....	384
Checking for a Valid File Request.....	386
Preprocessing the Requested Page.....	387
Setting the Support Filenames.....	389
Reading in Link Information.....	390
Determining if the Visitor Is Allowed Access.....	393

Updating the Site Access Log394
Turning Away Visitors Who Have Been Denied Access396
Processing Link Requests.....	.397
Retrieving and Updating the Page Count398
Making the Variables Accessible402
Processing the Body of the Requested Page403
Adding an Optional Footer.....	.412
Writing the Links File (Subroutine).....	.414
Ideas for Enhancements.....	.415

CHAPTER 10

RESTRICTING ACCESS: AUTHENTICATE.CGI417
Features417
Usage Guide421
Installation.....	.422
Directory and File Setup422
Configuration Variable Setup.....	.423
The Program.....	.433
Configuration.....	.433
Pulling in Required Files435
Initializing Variables.....	.435
Parsing the Form and Checking for Cookies436
Processing a Request for Registration Validation437
Processing an Initial Request438
Processing a Request for the Lost ID Form.....	.441
Processing a Request for the Registration Form441
Processing a Response from the Authentication Form.....	.442
Processing a Response from the Registration Form449
Processing a Response from the Lost ID Form.....	.454
Sending the Appropriate Page or Form457
A Sample Registration Subroutine460
Initializing Variables460
Checking the Required Fields.....	.461
Validating the Fields.....	.461
Password-Protecting a Program.....	.463
Configuring and Using <i>auth_check()</i>464
The Subroutine.....	.464
Ideas for Enhancements.....	.466

CHAPTER 11	
GETTING SUPPORT: THE SUBROUTINES	469
Features	469
Using the Subroutines	471
Converting IP Addresses: <i>addr_to_host</i>	472
Usage Guide	472
The Subroutine.....	473
Base64 Encoding a File: <i>base64_encode_file</i>	475
Usage Guide	476
The Subroutine.....	477
Checking Credit Cards: cc-validate	480
Usage Guide	480
The Subroutine.....	481
Checking Email Addresses: <i>email_check</i>	485
Usage Guide	485
The Subroutine.....	486
Reporting an Error: <i>error</i>	488
Usage Guide	489
The Subroutine.....	
Formatting Dates: format-date	493
Usage Guide	493
The Subroutine.....	497
Converting IP Addresses to 8-Character Filenames: <i>ip_convert</i>	502
Usage Guide	502
The Subroutine.....	503
Locking Files: lock and unlock	505
Usage Guide..	505
The Subroutines.....	508
Parsing Form Fields: parseform	512
Usage Guide	512
The Subroutine.....	514
Parsing Template Files: parse-template	518
Usage Guide	519
The Subroutine.....	522
Encoding Information: scramble and unscramble	525
Usage Guide	525
The Subroutines	
Email	
<i>send_email</i>	526
	530

Usage Guide	530
The Subroutine.....	535
Uuencoding a File: <i>uuencode</i>	550
Usage Guide	551
The Subroutine.....	552

APPENDICES

APPENDIX A	
CGI DEBUGGING SECRETS	557
Adding a Method to the Madness	557
.....	558
.....	558
File Access Errors	559
Syntax Errors	559
Configuration Errors	560
Output Format Errors.. ..	560
Using the Perl Debugger	561
.....	561
Faking a CGI Call	564
Seeing the Invisible	565
APPENDIX B	
CGI ENVIRONMENT VARIABLES	567
Accessing the %ENV Array.	567
The Variables.....	569
Visitor Identity.....	570
REMOTE_ADDR	570
REMOTE-HOST.	570
AUTH_TYPE	571
REMOTE-USER	571
REMOTE_IDENT.....	571
Form and Cookie Information.....	571
REQUEST-METHOD	572
CONTENT_TYPE.....	572
CONTENT-LENGTH	572
QUERY-STRING	572
PATH-INFO	572
PATH-TRANSLATED	573

HTTP_COOKIE.....	57 3
Server Information57 3
SERVER_NAME	57 3
SERVER-ADMIN	57 3
SERVER-SOFTWARE	57 3
GATEWAY-INTERFACE	57 3
DOCUMENT_ROOT.....	57 4
Browser Request Information.....	57 4
HTTP-USER-AGENT	57 4
HTTP-REFERER.....	57 4
SERVER-PROTOCOL.....	57 4
SERVER_PORT.....	57 4
HTTP_ACCEPT.....	57 5
Program Information	57 5
SCRIPT-NAME.....	57 5
Server-Side Include Information.....	57 5
DOCUMENT-NAME.....	57 5
DOCUMENT_URI	57 6
LAST-MODIFIED.....	57 6
DATE_LOCAL.....	57 6
DATE_GMT.....	57 6
APPENDIX C	
CGI SECURITY	577
The Potential for Harm	577
Areas of Concern.....	57 8
Making Assumptions	57 8
Hijacking a Form.....	57 8
Protecting Yourself	57 9
A Plan of Action	58 3
APPENDIX D	
HTTP HEADERS	585
The Purpose of Headers	585
Using HTTP Headers in a CGI Program	585
Useful HTTP Headers	585
The Basics	587
Content-Type	587
Content-Length	587

Location	588
Set-Cookie	588
Keeping Things Fresh	589
Refresh	589
Expires	590
Pragma	590
Last-Modified.	591

APPENDIX E

CGI/PERL RESOURCES	593
Online Resources.....	593
CGI Program Archives	594
CGI Resources.....	594
Perl Resources	595
Newsgroups..	596
Specifications	596
Other Resources	596

APPENDIX F

CD-ROM GUIDE	597
What's on the CD-ROM?.....	597
Hardware Requirements.....	598
Installing the Software	598
Using the Software..	599
User Assistance and Information.....	599

APPENDIX G

THE PERL ARTISTIC LICENSE	601
The "Artistic License"	601
Preamble..	601
Definitions.	602
Terms	602

BIBLIOGRAPHY	605
