PREFACE TO THE FOURTH EDITION .....	6
ACKNOWLEDGMENTS .....	7
<b>1. SPECTROSCOPY AND GRATINGS.. .....</b>	<b>. 8</b>
1.0. INTRODUCTION .....	. 8
1.1. THE DIFFRACTION GRATING .....	. 9
1.2. A BRIEF HISTORY OF GRATING DEVELOPMENT .....	. 9
1.3. THE RICHARDSON GRATING LABORATORY .....	10
<b>2. THE PHYSICS OF DIFFRACTION GRATINGS.. .....</b>	<b>. 12</b>
2.1. THE GRATING~ EQUATION.. .....	12
2.2. DIFFRACTION ORDERS .....	16
2.2.1. <i>Existence of Diffraction Orders.</i> .....	16
2.2.2. <i>Overlapping of Diffracted Spectra.</i> .....	17
2.3. DISPERSION .....	19
2.3.1. <i>Angular dispersion.</i> .....	19
2.3.2. <i>Linear dispersion.</i> .....	20
2.4. RESOLVING POWER, SPECTRAL RESOLUTION, AND BANDPASS .....	21
2.4.1. <i>Resolving power.</i> .....	21
2.4.2. <i>Spectral resolution.</i> .....	23
2.4.3. <i>Bandpass</i> .....	24
2.4.4. <i>Resolving power vs. resolution.</i> .....	24
2.5. FOCAL LENGTH AND <i>f</i> /NUMBER .....	24
2.6. ANAMORPHIC MAGNIFICATION .....	26
2.7. FREE SPECTRAL RANGE.. .....	27
2.8. ENERGY DISTRIBUTION (GRATING EFFICIENCY) .....	28
2.9. SCATTERED AND STRAY LIGHT.. .....	28
2.9.1. <i>Scattered light</i> .....	28
2.9.2. <i>Instrumental stray light</i> .....	29
2.10. SIGNAL-TO-NOISE RATIO (SNR). .....	29
<b>3. RULED GRATINGS.. .....</b>	<b>. 31</b>
3.0. INTRODUCTION .....	. 31
3.1. GRATING RULING ENGINES.. .....	. 31
3.1.1. <i>The Michelson engine</i> .....	31
3.1.2. <i>The Mann engine</i> .....	32
3.1.3. <i>The MIT 'B' engine</i> .....	32
3.2. THE RULING PROCESS.. .....	. 32
3.3. VARIED LINE-SPACE (VLS) GRATINGS .....	. 33
<b>4. HOLOGRAPHIC GRATINGS.. .....</b>	<b>. 35</b>
4.0. INTRODUCTION .....	35

4.1.	<b>PRINCIPLE OF MANUFACTURE</b> .....	35
4.1.1.	<i>Formation of an interference pattern</i> .....	35
4.1.2.	<i>Formation of the grooves</i> .....	36
4.2.	<b>CLASSIFICATION OF HOLOGRAPHIC GRATINGS</b> .....	37
4.2.1.	<i>Single-beam interference.</i> .. .	3 7
4.2.2.	<i>Double-beam interference</i> .....	38
4.3.	<b>THE RECORDING PROCESS</b> .....	39
4.4.	<b>DIFFERENCES BETWEEN RULED AND HOLOGRAPHIC GRATINGS</b> 4 0	
4.4.1.	<i>Differences in grating efficiency</i> .. .	40
4.4.2.	<i>Differences in scattered light</i> .....	41
4.4.3.	<i>Differences and limitations in the groove profile</i> ..	41
4.4.4.	<i>Limitations in obtainable groove frequencies</i> .....	4 2
4.4.5.	<i>Differences in the groove patterns.</i> ..	43
4.4.6.	<i>Differences in the substrate shapes</i> .....	4 3
4.4.7.	<i>Differences in generation time for master gratings</i> ..	44
5.	<b>REPLICATED GRATINGS</b> .....	45
5.0.	<b>INTRODUCTION</b> .....	45
5.1.	<b>THE REPLICATION PROCESS</b> .....	45
5.2.	<b>REPLICA GRATINGS vs. MASTER GRATINGS</b> .....	48
5.3.	<b>STABILITY OF REPLICATED GRATINGS</b> .....	50
6.	<b>PLANE GRATINGS AND THEIR MOUNTS</b> .....	52
6.1.	<b>GRATING MOUNT TERMINOLOGY</b> .....	52
6.2.	<b>PLANE GRATING MOUNTS</b> .....	52
6.2.1.	<i>The Czerny-Turner Monochromator</i> .....	52
6.2.2.	<i>The Ebert-Fastie Monochromator</i> .....	53
6.2.3.	<i>The Monk-Gillieson Monochromator</i> .....	54
6.2.4.	<i>The Littrow Mount</i> .....	55
6.2.5.	<i>Double Monochromators</i> .. . . .	55
6.2.6.	<i>Triple Monochromators</i> .....	56
7.	<b>CONCAVE GRATINGS AND THEIR MOUNTS</b> .....	58
7.0.	<b>INTRODUCTION</b> .....	58
7.1.	<b>CLASSIFICATION OF GRATING TYPES</b> .....	58
7.1.1.	<i>Groove patterns</i> .....	59
7.1.2.	<i>Blank shapes</i> .....	59
7.2.	<b>CLASSICAL CONCAVE GRATING IMAGING</b> .....	60
7.3.	<b>NONCLASSICAL CONCAVE GRATING IMAGING</b> .....	66
7.4.	<b>REDUCTION OF ABERRATIONS</b> .....	68
7.5.	<b>CONCAVE GRATING MOUNTS</b> .....	69
7.5.1.	<i>The Rowland Circle Spectrograph</i> .....	69
7.5.2.	<i>The Wadsworth Spectrograph</i> .....	70
7.5.3.	<i>Flat Field Spectrographs.</i> .. . . .	71
7.5.4.	<i>Constant-Deviation Monochromators</i> .....	72
8.	<b>IMAGING PROPERTIES OF GRATING SYSTEMS</b> .....	74
8.1.	<b>CHARACTERIZATION OF IMAGING QUALITY</b> .....	74
8.1.1.	<i>Geometric Raytracing &amp; Spot Diagrams.</i> ..	74
8.1.2.	<i>Linespread Calculations</i> .. . . .	76
8.2.	<b>INSTRUMENTAL IMAGING</b> .....	77
	<b>Magnification of entrance aperture</b> .....	77

82.2.	<i>Effects of the entrance aperture dimensions..</i>	80
82.3.	<i>Effects of the exit aperture dimensions..</i>	80
<b>9.</b>	<b>EFFICIENCY CHARACTERISTICS OF DIFFRACTION GRATINGS.....</b>	<b>84</b>
9.0.	INTRODUCTION .....	84
9.1.	GRATING EFFICIENCY AND GROOVE SHAPE.. .....	87
9.2.	EFFICIENCY CHARACTERISTICS FOR TRIANGULAR-GROOVE GRATINGS.....	8
9.3.	EFFICIENCY CHARACTERISTICS FOR SINUSOIDAL -GROOVE GRATINGS.. .....	93
9.4.	THE EFFECTS OF FINITE CONDUCTIVITY .....	97
9.5.	DISTRIBUTION OF ENERGY BY DIFFRACTION ORDER.. .....	98
9.6.	USEFUL WAVELENGTH RANGE .....	101
9.7.	BLAZING OF RULED TRANSMISSION GRATINGS .....	101
9.8.	BLAZING OF HOLOGRAPHIC REFLECTION GRATINGS .....	102
9.9.	OVERCOATING OF REFLECTION GRATINGS .....	102
<b>10.</b>	<b>TESTING AND CHARACTERIZING DIFFRACTION GRATINGS.....</b>	<b>104</b>
10.1.	SPECTRAL DEFECTS.. .....	104
10.1.1.	<i>Rowland Ghosts</i> .....	104
10.1.2.	<i>Lyman Ghosts</i> .....	106
10.1.3.	<i>Satellites</i> .....	106
10.2.	EFFICIENCY MEASUREMENT .....	107
10.3.	FOCAULT KNIFE-EDGE TEST .....	107
10.4.	DIRECT WAVEFRONT TESTING .....	108
10.5.	SCATTERED LIGHT.. .....	109
<b>11.</b>	<b>SELECTION OF DISPERSING SYSTEMS .....</b>	<b>110</b>
11.1.	REFLECTION GRATING SYSTEMS .....	110
11.1.1.	<i>Plane reflection grating systems</i> .....	110
11.1.2.	<i>Concave reflection grating systems.</i> .....	110
11.2.	TRANSMISSION GRATING SYSTEMS.....	111
11.3.	GRATING PRISMS (GRISMS) .....	113
11.4.	GRAZING INCIDENCE SYSTEMS .....	115
11.5.	ECHELLES.. .....	115
<b>12</b>	<b>GRATINGS FOR SPECIAL PURPOSES .....</b>	<b>119</b>
12.1.	ASTRONOMICAL GRATINGS.. .....	119
12.2.	GRATINGS AS FILTERS .....	119
12.3.	GRATINGS FOR ELECTRON MICROSCOPE CALIBRATION.....	119
12.4.	GRATINGS FOR LASER TUNING .....	120
12.5.	GRATINGS AS BEAM DIVIDERS.. .....	120
12.6.	MOSAIC GRATINGS.. .....	121
12.7.	SPACE-BORNE SPECTROMETRY .....	121
12.8.	SPECIAL GRATINGS .....	121
<b>13.</b>	<b>ADVICE TO GRATING USERS.....</b>	<b>123</b>
13.1.	CHOOSING A SPECIFIC GRATING.. .....	123
13.2.	CLEANING AND RECOATING GRATINGS.. .....	124
13.3.	APPEARANCE.. .....	124
13.3.1.	<i>Ruled gratings</i> .....	124
13.3.2.	<i>Holographic gratings</i> .....	125
13.4.	GRATING MOUNTING.....	125

<b>14. HANDLING GRATINGS..</b> .....	<b>126</b>
<b>14.1. THE GRATING SURFACE..</b> .....	<b>126</b>
<b>14.2. PROTECTIVE COATINGS</b> .....	<b>127</b>
<b>14.3. GRATING COSMETICS AND PERFORMANCE..</b> .....	<b>127</b>
<b>14.4. UNDOING DAMAGE TO THE GRATING SURFACE..</b> .....	<b>128</b>
<b>14.5. GUIDELINES FOR HANDLING GRATINGS</b> .....	<b>128</b>
<b>15. GUIDELINES FOR SPECIFYING GRATINGS..</b> .....	<b>130</b>
15.1. REQUIRED SPECIFICATIONS ..	130
15.2. SUPPLEMENTAL SPECIFICATIONS ..	133
<b>BIBLIOGRAPHY</b> .....	<b>135</b>
<b>TECHNICAL PUBLICATIONS</b> OF THE RICHARDSON GRATING LABORATORY . . . . .	
.....	<b>137</b>
<b>INDEX</b> .....	<b>140</b>
