

# CONTENTS

Preface .....	4
Foreword .....	9

## I/ Nuclear power-an historical perspective 13

1/ So Dawns the Nuclear Age .....	14
2/ War and Peace - Bomb and Electricity.. .....	24
3/ The First Nuclear Power Plants .....	30
4/ The Economic Breakthrough .....	36
5/ Looking Forward to an Open and Diversified Future .....	50

## II/ Diversity of reactor designs 69

6/ Nuclear Power Plants around the World .....	70
7/ Heavy Water - the Canadian Design .....	72
8/ Gas-cooled Reactors - Wealth of Experience.....	80
9/ High Temperature Reactors - the German Gambit .....	88
10/ Boiling Water - a Strong Challenger .....	92
11/ Pressurized Water - the World Leader .....	100
12/ Fast Breeder Reactors - Tomorrow's Design .....	114
13/ Controlled Fusion - Industrial Prospects .....	122

## III/ Safety and the environment 127

14/ Nuclear Power and Public Opinion .....	128
15/ Controlling Fission .....	134
16/ Developments in Safety Philosophy .....	138
17/ Organization of Nuclear Safety.....	152
18/ Ionizing Radiation and its Biological Effects .....	156
19/ Protection of Man.....	164
20/ Protection of the Environment.....	170

<b>IV/ Architecture and heavy construction</b>	181
21/ The Cathedrals of the 20th Century .....	182
22/ The architectural Side - French Experience .....	194
23/ Integration into the Environment.....	202
24/ Major Buildings on the Plant Site .....	210
25/ Life on the Construction Site .....	228
<b>V/ Fabrication and installation</b>	237
26/ The Major Components .....	238
27/ Precision Engineering .....	256
28/ Interdependence of Equipment .....	264
29/ The Art of the Engineer.....	274
<b>VI/ Nuclear fuel</b>	283
30/ The Fuel Cycle .....	284
31/ Mining and Conversion.....	288
32/ Isotopic Enrichment .....	302
33/ Fuel Fabrication, a Space Age Art Form .....	308
34/ Fuel Transport and Reprocessing.....	318
35/ Waste Storage and Disposal .....	322
<b>VII/ Working for the electric power industry</b>	329
36/ Plant Operators .....	330
37/ Outside the Plant .....	340
38/ Evaluation of the Service Provided .....	352
<b>Appendices</b>	361
List of Illustrations .....	396
List Of Abbreviations.....	403
Biographical Index.....	405
Index of Nuclear Facilities and Geographical Locations .....	406
Glossary .....	409
