

# CONTENTS

EXECUTIVE SUMMARY .....	II
The accidental exposure .....	1
Lessons and recommendations .....	2
1. INTRODUCTION .....	7
1.1. Background .....	7
1.2. Objectives .....	9
1.3. Scope .....	9
1.4. Structure .....	9
2. BACKGROUND INFORMATION .....	10
2.1. Radiotherapy departments in Panama .....	10
2.2. The Radiotherapy Department at the Instituto Oncológico Nacional .....	10
<b>2.2.1 External beam radiotherapy</b> .....	<b>11</b>
2.2.2. Brachytherapy .....	13
2.3. Treatment planning system .....	14
2.4. Radiation protection infrastructure and regulatory control .....	15
2.4.1. Authorization of the Radiotherapy Department .....	16
2.5. History of recent audits of the Radiotherapy Department .....	16
2.5.1. Audit in February 1999 .....	16
2.5.2. Audit in February 2001 .....	18
2.5.3. Results of IAEA/WHO TLD postal dose quality audits performed at the ION .....	19
3. THE ACCIDENTAL EXPOSURE .....	19
3.1. Initiating event .....	19
3.2. Discovery of the problem .....	23
4.. RESPONSE TO THE ACCIDENTAL EXPOSURE .....	24
4.1. Actions taken upon discovery of the error .....	24
4.2. Response from the IAEA .....	25

5.	DOSE ASSESSMENT .....	28
5.1.	Introduction .....	28
5.2.	Scope of the dosimetric evaluation .....	29
5.3.	Comparison of the dosimetry systems and beam calibration .....	31
5.3.1.	Dosimetry system intercomparison .....	31
5.3.2.	<sup>60</sup> Co beam calibration .....	32
5.3.3.	Variation of absorbed dose with field size .....	32
5.3.4.	Depth dose data .....	33
5.3.5.	Wedge transmission .....	33
5.3.6.	Verification of dose delivery .....	33
5.4.	Patient doses .....	34
5.4.1.	Assessment of doses from irradiation with external beams ..	34
5.4.2.	Consideration of brachytherapy treatments .....	35
5.4.3.	Doses equivalent to treatments of 2 Gy per fraction .....	35
5.4.4.	Other patients treated in the same period .....	46
6.	TEST OF THE COMPUTER SOFTWARE USING DIFFERENT APPROACHES FOR DATA ENTRY .....	47
6.1.	Instructions and warnings .....	47
6.2.	Tests performed .....	48
7.	MEDICAL ASSESSMENT .....	60
7.1.	Background information on radiation effects in humans .....	60
7.2.	Basic radiotherapy principles relevant to this accidental exposure ..	61
7.3.	Fractionation of radiation exposure .....	62
7.4.	Adverse effects .....	62
7.5.	Spectrum of overexposures in this event .....	63
7.6.	Complicating factors in the evaluation of this event .....	65
7.7.	Results of the medical team's investigation .....	65
7.7.1.	Surviving patients .....	72
7.7.2.	Deceased patients .....	75
7.7.3.	Sequence of events leading to death .....	78
8.	FINDINGS AND CONCLUSIONS OF THE TEAM, AND LESSONS TO BE LEARNED .....	79
8.1.	Operating organization: Radiotherapy departments .....	80
8.1.1.	Quality assurance and radiotherapy .....	80

8.1.2. Treatment planning systems as a safety issue . . . . .	81
8.1.3. Manual calculation check of the computer calculated plan . .	81
8.1.4. Changes in procedures . . . . .	81
8.1.5. Workload and team integration . . . . .	82
8.1.6. Observation of unusual reactions of patients . . . . .	82
8.1.7. In vivo dosimetry . . . . .	83
8.1.8. Local advice from the manufacturer/supplier. . . . .	83
8.2. National authorities . . . . .	83
8.2.1. Quality assurance . . . . .	83
8.2.2. Communication between regulators and users of radiation .	84
8.3. Equipment manufacturers and suppliers . . . . .	84
8.3.1 Software in treatment planning . . . . .	84
8.4. The medical community . . . . .	85
8.4.1. Findings . . . . .	85
8.4.2. Recommendation on patient care and follow-up . . . . .	85
 ANNEX I. TERMINATION REPORT TO THE CONTACT POINTS . . . . .	 87
 ANNEX II. LITERATURE REVIEW OF RADIATION EFFECTS IN PERTINENT TISSUES IN THIS ACCIDENTAL EXPOSURE . .	 89
 Skin . . . . .	 89
Small intestine . . . . .	90
Colon, sigmoid and rectum . . . . .	92
Bladder . . . . .	93
Uterus . . . . .	95
Vagina . . . . .	96
Prostate and seminal vesicles . . . . .	97
Penis, urethra and scrotum . . . . .	97
 ANNEX III. DATA ON INDIVIDUAL PATIENTS INVOLVED IN THIS ACCIDENTAL EXPOSURE . . . . .	 99
 REFERENCES . . . . .	 111
CONTRIBUTORS TO DRAFTING AND REVIEW . . . . .	115
