

TABLE OF CONTENTS

PREFACE

V

1. General Topics

1

H. Frauenfelder

3

Proteins and Glasses

B. Souillard

19

Fractals and Localization

F. Brouers

29

Relation between Microstructure, Transport and Optical Properties in Composite Materials

W. Götze

34

Comments on the Mode Coupling Theory of the Liquid Glass transition

M. Ronchetti, G. Jacucci

82

Computer Simulation Studies of Atomic Structure and Dynamics Relevant to Liquid and Amorphous Alloys

M. Hasegawa

99

On Surface Properties of the Classical One-Component Plasma

2. Structure of Liquids

103

W. van der Lugt, A.J. Meijer

105

Relations between Atomic Arrangement and Electronic Structure in Liquid Metals and Alloys

M. Rovere, M.P. Tosi

118

Liquid Structure and Freezing of Metals and Molten Salts

G. Kahl, J. Hafner

135

The Structure of Liquid Binary Alloys

U. Krieger, J. Bosse

139

Glass Transition in Simple Molten Salts

M. Benfatto, C.R. Natoli, J. Garcia, A. Marcelli, A. Bianconi, I. Davoli

142

Local Order at the Manganese Sites in Ionic Solutions by XANES

	H. Hahn, M. Matzke, U. Zumpe	146
	"Bond"-Orientational Short Range Order in Liquid Aluminium	
3.	Structure of Amorphous Materials	149
	S. Methfessel	151
	Atomic Short Range Order in Amorphous Materials	
	J. Hafner, G. Kahl, A. Pasturel	164
	Electronically Driven Structural Effects in Liquid and Amorphous Metals and Alloys	
	E. Hornbogen	188
	The Origin of Microstructures of Rapidly Solidified Alloys	
	K. H. Bennemann	200
	Disorder in Metals - Selected Problems	
	W. Triftshäuser, G. Kogel	218
	Defects in Amorphous Alloys	
	A. Fleischmann, P. Müller, W. Glaser	233
	Superconducting and Structural Properties of Amorphous Zr (Ni, Mo, W) Alloys	
4.	Dynamics of Liquids and Amorphous Materials	237
	A. Sjölander	239
	Atomic Motions in Liquids	
	W. Glaser	258
	Experimental Studies of Atomic Motions in Liquid Metals	
	D. Quitmann	279
	Atomic Dynamics in Binary Liquids with Attractive A-B Interaction	
	W. Schirmacher	294
	Transition from Gaussian to Dispersive Atomic Transport in Amorphous Materials	
	W. W. Warren	304
	Interaction Effects in Liquids with Low Electron Densities	
	K. Ott, M. Kiehl, M. Haghani, M. von Hartrott, P. Maxim	312
	C. A. Paulick, D. Quitmann	
	Nuclear Quadrupolar Relaxation and Thermodynamics in Liquid Ternary Alloys	
	C. Morke, W. Gläser	315
	Single Particle Motion in Liquid Sodium	
5.	Electronic Properties of Liquid and Amorphous Materials	319
	H. Beck, R. Frésard	321
	Electronic Structure and Transport in Amorphous and Liquid Metals	

P. Oelhafen Electronic Structure of Metallic Glasses - Bulk and Surface Properties	333
F. Hensel Fluid Metals at High Temperatures	345
G. Fritsch, A. Schulte, E. Lüscher Low Temperature Transport Properties: The Electrical Resistivity of some Amorphous Alloys	368
E. Lüscher, G. Fritsch Amorphous Metals at High Pressure	391
M.A. Haghani, R. Brinkmann, M von Hartrott, P. Maxim K. Ott, C.A. Paulick, D. Quitmann Electron Localization in the Liquid Tl-Te-System as seen by Bi-Impurity	405
A. Schulte, A. Roithmayer, G. Fritsch, E. Lüscher Temperature Dependence of the Hall-Effect in some Amorphous Transition Metal Alloys	408
M Trudeau, R.W. Cochrane, J. Destry Magnetoresistance Studies of Amorphous FeZr Alloys	414
F. Kub, A. Schulte, P. Lobl, E. Lüscher, G. Fritsch Magnetoconductivity of MgZr Metallic Glasses at Low Temperatures	418
E. Huber, U. Kanbli, N. Baltzer, M von Allmerl Optical Properties of Pt-Si Glasses	423
B. Kefif, J.-G. Gasser Electrical Resistivity of Liquid Rare Earth-Transition Alloys of Nickel with Lanthanum and Cerium	427
i. Production of Amorphous Materials	433
G. von Münnigerode, K. Samwer, A. Regenbrecht Formation of Non-Crystalline Metallic Alloys with and without Rapid Quenching	435
M von Allmerl Materials Amorphized by Laser Irradiation	450
H. Warlimont How to Produce Well-Defined Amorphous Alloys	461
R. Brenier, J. Dupuy Ion Implantation and Amorphisation in Metallic Systems	479
L. Guzmán, M. Elena, G. Giunta, F. Marchetti, P.M. Ossi, G. Riontino, V. Zanini Surface Amorphous Alloys Obtained by Ion-Mixing	498

A. M Elias Organometallic Glass-Forming Materials and their Structure	502
L. Schultz Bulk Amorphous Metals by Solid State Reaction	508
Subject Index	515
