

CONTENTS

The International Advisory Committee	v
The Organizing Committee	vi
Preface	vii
Opening Address	1
Top Physics at DØ <i>B. Klima</i>	5
Observation of t Quark Production at CDF <i>W.-M. Yao</i>	21
Review of Experimental Results on Precision Tests of Electroweak Theories <i>F. B. Renton</i>	35
Implications of Precision Electroweak Data <i>K. Hagiwara</i>	63
Experimental Progress on Charmonium and Light Hadron Spectroscopy <i>J. Li</i>	94
Physics in Charm Energy Region <i>K.-T. Chao</i>	106
Physics Results with Polarized Electrons at SLAC <i>C. Y. Prescott</i>	130
Nucleon Spin Structure from Polarized Deep Inelastic Muon-Nucleon Scattering at CERN <i>V.W. Hughes</i>	147
Supersymmetry and Grand Unification <i>J. Ellis</i>	170
Masses and Lifetimes of B Hadrons <i>I. J. Kroll</i>	204
Decays of b Quark <i>T. Skwarnicki</i>	238

Recent Results on B Meson Oscillations <i>s. L. Wu</i>	273
Heavy Flavour Physics <i>M. Neubert</i>	298
Non-Perturbative Aspects of Field Theories <i>V.A. Rubakov</i>	325
Mechanisms of Electroweak Symmetry Breaking — The Role of a Heavy Top Quark <i>W.A. Bardeen</i>	350
The LHC Project <i>C. H. Llewellyn Smith</i>	370
Accelerator Physics and Technologies for Future Linear Colliders <i>D. L. Burke</i>	390
CP and Rare Decays <i>P. Franzini</i>	414
CP Violation: Present and Future <i>E. A. Paschos</i>	434
Tau Physics <i>H.-S. Chen</i>	456
New Detectors and Experimental Techniques <i>J. -J. Aubert</i>	485
The Structure of the Photon and the Proton <i>A. C. Caldwell</i>	505
High Energy Diffraction <i>Ch. Berger</i>	533
Latest Developments in Small-x Physics <i>J. Bartels</i>	554
Neutrino Properties and Interactions <i>K. Winter</i>	569
Searches for New Particles <i>G. Mikenberg</i>	593

Review of Non-Accelerator Experiments <i>G. Giacomelli</i>	601
QCD From the Lattice <i>C. Michael</i>	626
Experimental Studies of QCD <i>M. Yamauchi</i>	645
High Energy QCD and Small-x Physics <i>A. H. Mueller</i>	672
Cosmology <i>M. S. Turner</i>	693
Experimental Results and Future Opportunities <i>S. C. C. Ting</i>	724
Overview of Present Status of Theory <i>T.D. Lee</i>	792
Closing Remarks <i>Z.-P. Zheng</i>	810
Photographs of the Conference	813
List of Participants	821
