

CONTENTS

Preface		v
Chapter 1	Laser-induced Excited Atom Dynamics: Stimulated, Electron Shelving and Atom-Surface Processes <i>C. Mavroyannis</i>	1
Chapter 2	Photoinduced Electron Transfer, Electron Photoejection and Related Phenomena in Solutions-Femtosecond ~ Nanosecond Laser Photolysis Studies <i>N. Mataga and Y. Himta</i>	175
Chapter 3	Spectroscopic Manifestations of Intermediate Dynamical Processes in Optical and Ultraviolet Multiphoton Excitation <i>E. R. Grant</i>	277
Chapter 4	Resonant MPI Photoelectron Study on Direct Ionization and Autoionization of Nitric Oxide Molecule <i>K. Kimum and Y. Achiba</i>	317
