

TABLE OF CONTENTS

<i>Opening Address</i>	<i>U. Nguyen-Khac</i>	1
<i>Opening lecture</i>	<i>E. Fiorini</i>	3
<i>Historical retrospect</i>		
<i>Discovery of Neutral Currents</i>		
• The Gargamelle programme	<i>A. Rousset</i>	17
• The observation of leptonic neutral currents in the Gargamelle experiment	<i>D. Cundy</i>	43
• Observation of hadronic neutral currents in the Gargamelle experiment	<i>A. Pullia</i>	55
• Observation of hadronic weak neutral currents in Gargamelle	<i>D. Haidt</i>	69
• First observation of neutral currents at NAL	<i>L. Sulak</i>	95
• The observation of neutral currents in the Caltech-Fermilab experiment	<i>B. Barish</i>	111
• Discovery of neutral currents in exclusive channels	<i>W. Lee</i>	133
<i>Electroweak theory</i>		
• About the genesis of the Standard Model	<i>M. Veltman</i>	151
<i>Neutrino properties</i>		
• Neutrino masses and mixing	<i>A. Smirnov</i>	169
• Neutrino oscillations experiments	<i>H. Pessard</i>	187
<i>Neutral currents : theoretical models</i>		
• Weak neutral currents in the Standard Model	<i>L. Maiani</i>	211
• Neutral currents as a test of theories beyond the Standard Model	<i>P. Binétruy</i>	233
<i>Parity violation in Atomic Physics</i>		
• Neutral currents in atoms, experiments in Cesium and implications	<i>M.A. Bouchiat</i>	247
• Parity nonconservation in atoms with T violation : present results and future prospects	<i>L. Hunter</i>	271

Neutral currents in neutrino interactions

- Leptonic neutral currents A. Rosanov 287
- Hadronic neutral currents S.R. Mishra 305

Neutral currents in e^+e^- and ep collisions

- Search for new physics at LEP A. Rubbia 309
- Electroweak physics of heavy flavours at LEP G. Wormer 345
- Parity-violation at the Z at LEP H. Videau 347
- Precise measurements of Z^0 parameters at LEP P.M. Watkins 361
- e^+e^- collisions at the SLC : the left-right asymmetry C. Prescott 379
- Neutral currents in ep collisions at HERA E. Elsen 393

Solar neutrinos

- Solar neutrino spectroscopy F. von Feilitzsch 411
- Are there astrophysical solutions to the solar neutrino puzzle ? S. Turck-Chièze 423

Neutrinos in Astrophysics and Cosmology

- Neutrinos and, supernovae A. Burrows 441
- Neutrinos from Astrophysical Origin Y. Totsaka 457
- Neutrinos as dark matter and neutrinos from dark matter V. Berezhinsky 459
- New developments in Particle Astrophysics B. Sadoulet 475

Closing lecture

J. Iliopoulos 477
