

## Table of Contents

<b>List of Tables</b>	vii
<b>List of Figures</b>	xi
<b>Abstract</b>	xvii
<b>Acknowledgements</b>	xxi
<b>1. INTRODUCTION</b>	1
1.1 Context of the Study	1
1.2 Severe Accidents Issue	1
1.3 Potential Users of Severe Accident Information	2
1.4 Report Organisation	4
1.5 Dissemination of Project Results	5
1.6 References	5
<b>2. OBJECTIVES AND SCOPE OF WORK</b>	9
2.1 Project Objectives	9
2.2 Scope of Work	9
2.3 References	13
<b>3. GENERAL ANALYSIS APPROACH AND METHODOLOGICAL ISSUES</b>	15
3.1 Background	15
3.2 User-dependent Restrictions	15
3.3 Implementation	16
3.4 Some Methodological Issues	18
3.5 Overall Analysis Strategy	19
3.6 References	20
<b>4. INFORMATION SOURCES</b>	21
4.1 Introduction	21
4.2 Overview	21
4.3 Review of Selected Databases and Sources	22
4.3.1 Databases and some additional sources used in ENSADI	22
4.3.1.1 The OFDA disaster history database	22
4.3.1.2 The Fatal Hazardous Materials Accidents Database	23
4.3.1.3 The Major Hazards Incidence Data Service (MHIDAS)	24
4.3.1.4 The industrial safety database FACTS	25
4.3.1.5 The WOAD Offshore Database	28
4.3.1.6 The Major Accident Reporting System	29
4.3.1.7 The accident handbook 'Materialien 5/83'	30
4.3.1.8 The "SIGMA" publication of the Schweizer Rück (reinsurance) company	31
4.3.1.9 Encyclopaedia Britannica	31

4.3.1.10	The ICOLD catalogues of dam disasters	31
4.3.1.11	The "Catalog of Dam Disasters, Failures and Accidents"	32
4.3.1.12	Marsh & McLennan Study on Gas and Electricity Utilities	32
4.3.2	Examples of some other databases not used in ENSAD	32
4.3.2.1	The Casualties and Demolition Database	32
4.3.2.2	Minerals Management Service Accident Database	33
4.3.2.3	Acute Hazardous Events Database	33
4.3.2.4	SONATA	34
4.3.2.5	The VARO database	35
4.3.3	Additional potential sources of severe-accident related information	36
4.3.3.1	OSH-ROM	36
4.3.3.2	HSELINE	36
4.3.3.3	NIOSHTIC	37
4.3.3.4	CISDOC	37
4.3.3.5	The ETDE Energy Database	37
4.4	summary	37
4.5	References	39
<b>5.</b>	<b>STRUCTURE AND CONTENT OF ENSAD</b>	<b>41</b>
5.1	Actual versus Reported Accidents	41
5.2	Severe Accident Definitions	41
5.3	Data Presentation in ENSAD	43
5.3.1	Identification number	43
5.3.2	Timing information and accident site specification	46
5.3.3	Technological characteristics of the accident	48
5.3.3.1	Energy production	48
5.3.3.2	Coal	48
5.3.3.3	Oil	48
5.3.3.4	Gas	48
5.3.3.5	Nuclear	48
5.3.3.6	Hydro	48
5.3.3.7	Activity data	48
5.3.3.8	Transport mode information	49
5.3.3.9	Information on the damaged facility	49
5.3.3.10	Information on general causes	49
5.3.3.11	Information on specific causes	49
5.3.3.12	Chemicals involved	53
5.3.4	Accident analysis	53
5.3.5	Damages	57
5.4	Some Facts about ENSAD	57
5.4.1	Overall statistical information of ENSAD	57
5.4.2	Source composition of energy-related accidents in ENSAD	59
5.4.3	Source composition of non-energy-related accidents in ENSAD	60
5.4.4	Distribution of energy-related accidents by years	61
5.4.5	Distribution of non-energy-related accidents by years	63
5.4.6	Distribution of severe energy-related accidents by country and continent	66

5.4.7 Distribution of severe non-energy-related accidents by country and continent	67
5.5 Comparison <b>ENSAD</b> with Other Databases	69
5.6 Summary	71
5.7 References	71
<b>6. EVALUATIONS FOR SPECIFIC ENERGY CHAINS</b>	<b>73</b>
6.1 Principles and Assumptions for Evaluation	73
6.1.1 Energy chain stages	73
6.1.2 LPG chain	74
6.1.3 Allocation of damages to energy and non-energy uses of energy carriers	74
6.1.4 Allocation of damages to countries exporting of importing energy carriers	76
6.1.5 References	78
6.2 Coal chain	80
6.2.1 Trends in severe accidents in the coal chain	80
6.2.2 Breakdown into coal chain stages	83
6.2.2.1 The ‘Exploration’ and ‘Extraction’ stages	83
6.2.2.2 The “Transport” stage	84
6.2.2.3 The “Conversion Plant” stage	85
6.2.2.4 The “Heating” & “Power Station” stage	85
6.2.2.5 “Waste and disposal” stages	86
6.2.3 Causes of coal accidents	87
6.2.4 Some highlights	89
6.2.5 References	89
6.3 Oil Chain	91
6.3.1 Crude oil products and trends in consumption	91
6.3.2 Breakdown of the oil chain into stages	93
6.3.3 Accidents in the oil chain	94
6.3.3.1 Severe oil accidents involving fatalities	94
6.3.3.2 Severe oil accidents involving injured	97
6.3.4 Fatal accidents in different oil chain stages	98
6.3.4.1 “Exploration” and “Extraction” stages	100
6.3.4.2 “Transport to Refinery” and “Regional Distribution” stages	103
6.3.4.3 “Refinery” stage	104
6.3.4.4 “Power plant” and “Heating” stages	105
6.3.5 Cost of oil accidents	105
6.3.5.1 “Exploration” and “Extraction” stages	106
6.3.5.2 “Transport to Refinery” stage	107
6.3.5.3 “Refinery” stage	109
6.3.5.4 “Regional Distribution” stage	110
6.3.5.5 “Heating/Power Plant” stage	110
6.3.6 Oil products involved in accidents	111
6.3.7 Oil spills	112
6.3.7.1 Oil spilled in “Exploration/Extraction” and “Transport to “Refinery” stages	112

6.3.7.2	Claimed and awarded costs of oil spills	113
6.3.7.3	Oil spills and ecological impacts	115
6.3.8	Some highlights	118
6.3.9	References	119
6.4.	Gas chain	120
6.4.1	Gas chain structure	120
6.4.2	World-wide consumption and trends for combustible gases	122
6.4.3	Non-energy uses of various gases	125
6.4.4	Accidents, fatalities and injured in the gas chain	125
6.4.4.1	Severe natural gas and LPG accidents involving fatalities	125
6.4.4.2	Severe natural gas and LPG accidents involving injured	127
6.4.4.3	Severe natural gas and LPG accidents involving evacuations	128
6.4.5	Breakdown into natural gas and LPG chain stages	130
6.4.5.1	Natural gas chain	130
6.4.5.2	LPG chain	132
6.4.6	Country-specific distribution of severe natural gas and LPG accidents	134
6.4.7	Some highlights	136
6.4.8	References	136
6.5	Nuclear Chain	137
6.5.1	Trends in nuclear-based electricity production	137
6.5.2	Historical nuclear accidents	137
6.5.3	Consequences and external costs of severe nuclear reactor accidents	143
6.5.3.1	The concept of externalities and its implications	143
6.5.3.2	External Costs and Electricity Generation	145
6.5.3.3	Studies of External Costs of Nuclear Reactor Accidents	149
6.5.3.4	State-of-the-art Methodology and its Limitations	160
6.5.4	Some highlights	175
6.5.5	References	176
6.6	Hydro Chain	183
6.6.1	Trends in the production of electricity by hydro power	183
6.6.2	Trends in the construction of hydro power dams by type	183
6.6.3	Dam accidents and dam failure rates	186
6.6.3.1	Risk of accidents during the construction of dams	186
6.6.3.2	Evaluation of dam failure rates on the basis of historical data	186
6.6.3.3	Earlier dam failure studies based on historical records	188
6.6.3.4	Boundaries in the evaluation of dam accident rates on the basis of historical data	189
6.6.3.5	Failure rates and years between failures for different dam types, time periods and times of failure	192
6.6.3.6	Summary of the study of dam failures in the Western World	215
6.6.4	Characteristics of and accidents at Swiss dams	216
6.6.4.1	Supervision	216
6.6.4.2	Dam types at Swiss reservoirs	217
6.6.4.3	Heights of Swiss dams	218
6.6.4.4	Capacities and influxes of Swiss reservoirs	219
6.6.4.5	Dam incidents and accidents in Switzerland	220

6.6.4.6	Applicability of historical data to the Swiss conditions	220
6.6.5	Frequency-consequence curves for dam accidents	223
6.6.5.1	Fatalities	223
6.6.5.2	Costs of dam failures	226
6.6.6	Are hydro power dams safer than dams with other purposes?	227
6.6.7	Some highlights	228
6.6.8	References	230
<b>7.</b>	<b>COMPARATIVE EVALUATIONS</b>	<b>235</b>
7.1	Scope of and Prerequisites for Comparative Evaluations	235
7.2	Severe Accidents Involving Fatalities	236
7.2.1	Number of severe accidents	236
7.2.2	Number of immediate fatalities	237
7.2.3	Number of immediate fatalities per event	239
7.2.4	Immediate fatality rates	240
7.2.5	Delayed fatality rates	241
7.2.6	Frequency-consequence curves for severe accidents involving fatalities	243
7.3	Severe Accidents Involving Injured	246
7.3.1	Number of severe accidents	246
7.3.2	Number of injured	246
7.3.3	Number of injured per event	247
7.3.4	Number of injured per unit of produced energy	248
7.3.5	Frequency-consequence curves for severe accidents involving injured	248
7.4	Severe Accidents Involving Evacuees	250
7.4.1	Number of severe accidents	250
7.4.2	Number of evacuees	250
7.4.3	Number of evacuees per event	251
7.4.4	Number of evacuees per unit of produced energy	252
7.5	Severe Accidents Involving Economic Losses	252
7.5.1	Number of severe accidents	252
7.5.2	Total damage costs	253
7.5.3	Damage costs per accident	253
7.5.4	Damage cost rates	254
7.6	Overview of Person-related Consequence Indicators	255
7.7	References	258
<b>8.</b>	<b>MAIN LIMITATIONS</b>	<b>259</b>
8.1	Limitations of the Database and its Uses	259
8.1.1	Completeness and recording accuracy	259
8.1.2	Quality of databases	262
8.1.3	Use of historical data	263

8.2	Limitations of Probabilistic Safety Assessment	264
8.2.1	Intrinsic and practical PSA limitations	265
8.2.2	Low probability numbers and cut-off values	266
8.2.3	Implications for the uses of PSA	267
8.3	Scope Limitations of the Present Work	267
8.4	References	268
<b>9.</b>	<b>SUMMARY, CONCLUSIONS AND OUTLOOK</b>	<b>269</b>
9.1	Summary of Research Results and Insights	269
9.1.1	PSI database and its merits	269
9.1.2	Evaluation of severe accidents for specific energy sources	273
9.1.2.1	Coal chain	273
9.1.2.2	Oil chain	273
9.1.2.3	Gas chain	275
9.1.2.4	Nuclear chain	276
9.1.2.5	Hydro chain	278
9.1.2.6	Most severe accidents with respect to various damage categories	280
9.1.3	Comparative assessment	282
9.1.3.1	Energy chain comparisons	282
9.1.3.2	Comparison with other large scale activities and natural disasters	300
9.1.3.3	Issues in comparative assessment of energy-related severe accidents	303
9.2	Recommendations for Future Work	304
9.3	References	307
	<b>LIST OF ABBREVIATIONS</b>	<b>311</b>
	<b>APPENDICES</b>	
Appendix A:	List of severe accidents within the coal chain in the period 1945 - 1996	A-1
Appendix B:	List of severe accidents within the oil chain in the period 1969 - 1996	B-1
Appendix C:	List of severe accidents within the gas chain in the period 1969 - 1996	C- 1
Appendix D:	Historical nuclear accidents	D-1
	D.1 Survey of nuclear accidents	D-1
	D.2 Consequences of the Chernobyl accident	D-17
	List of abbreviations	D-49
	Glossary	D-50
	References	D-51
Appendix E:	Lists of dam accidents	E-1
Appendix F:	Aggregated, chain-specific data for comparative evaluation	F-1
