

# CONTENTS

Introduction . . . . .	5
Grouping of countries and areas. . . . .	9
Table 1. Nuclear power reactors in the world (end of 2002) . . . . .	12
Figure 1. Nuclear share of total electricity generation during 2002 . . . . .	14
Table 2. Number of countries with nuclear power reactors in operation or under construction (end of 2002) . . . . .	15
Table 3. Estimates of total and nuclear electrical generating capacity . . . . .	17
Figure 2. Total and nuclear electrical generating capacity . . . . .	18
Table 4. Estimates of total electricity generation and contribution by nuclear power . . . . .	21
Figure 3. Percentage of electricity supplied by nuclear power. . . . .	22
Table 5. Estimates of total energy consumption (EJ), percentage used for electricity generation, and percentage supplied by nuclear energy . . . . .	25
Figure 4. Energy consumption estimates. . . . .	26
Table 6. Total energy consumption (EJ) by type of fuel during 2002 . . . . .	29
Figure 5. Total energy consumption by fuel type during 2002 . . . . .	30
Figure 6. Breakdown of world total energy consumption during the period 1970-2002 . . . . .	32
Table 7. Fuel shares (%) of energy consumption during 2002 . . . . .	35
Table 8. Energy consumption (EJ) for electricity generation by type of fuel during 2002 . . . . .	36
Table 9. Percentage contribution of each fuel type to electricity generation during 2002 . . . . .	37
Table 10. Estimates of population growth by region. . . . .	39
Figure 7. Population estimates. . . . .	40
Table 11. Estimates of total energy and electricity consumption per capita. . . . .	43

Figure 8. Per capita energy consumption . . . . .	44
Figure 9. Per capita electricity consumption . . . . .	46
Table 12. Average annual growth rates during the period 1991-2002 (per cent) . . . . .	49
Figure 10. Average annual growth rates during the period 1991-2002 (per cent) . . . . .	50
Table 13. Estimates of average annual growth rates-during the period 2002-2030 (per cent) . . . . .	53

Table 1. Estimates of total and nuclear electrical generating capacity . . . . .	15
Figure 2. Total and nuclear electrical generating capacity . . . . .	17
Table 4. Estimates of total electricity generation and contribution by nuclear power . . . . .	18
Figure 3. Percentage of electricity supplied by nuclear power . . . . .	21
Table 5. Estimates of total energy consumption (EJ), percentage used for electricity generation, and percentage supplied by nuclear energy . . . . .	22
Figure 4. Energy consumption estimates . . . . .	25
Table 6. Total energy consumption (EJ) by type of fuel during 2002 . . . . .	26
Figure 5. Total energy consumption by fuel type during 2002 . . . . .	29
Figure 6. Breakdown of world total energy consumption during the period 1970-2002 . . . . .	30
Table 7. Fuel shares (% of energy consumption during 2002 . . . . .	32
Table 8. Energy consumption (EJ) for electricity generation by type of fuel during 2002 . . . . .	35
Table 9. Percentage contribution of each fuel type to electricity generation during 2002 . . . . .	36
Table 10. Estimate of population growth by region . . . . .	37
Figure 7. Population estimates . . . . .	40
Table 11. Estimates of total energy and electricity consumption per capita . . . . .	43
