

## *Contents*

Preface . . . . .	vii
I. Axioms and general theorems . . . . .	3
II. Simplicial complexes . . . . .	54
III. Homology theory of simplicial complexes . . . . .	76
IV. Categories and functors . . . . .	108
V. Chain complexes . . . . .	124
VI. Formal homology theory of simplicial complexes . . . . .	162
VII. The singular homology theory . . . . .	185
VIII. Systems of groups and their limits . . . . .	212
IX. The Čech homology theory . . . . .	233
X. Special features of the Čech theory . . . . .	257
XI. Applications to euclidean spaces . . . . .	298
Index . . . . .	324
