

# TABLE OF CONTENTS

Page

## Preface

A Library for Screen Manipulation .....	1
Scope of this Handbook .....	2
Acknowledgement .....	2

## 1 Understanding Windows

Introduction .....	3
Windows, Screens and Images.....	4
The Standard Screen — <i>stdscr</i> .....	4
The Current Screen — <i>curscr</i> .....	7
Multiple Windows .....	9
The WINDOW Structure.....	11

## 2 Terminal Independence

Introduction .....	15
What is Terminal Independence? .....	16
Termcap .....	16
Terminfo .....	18
For More Information.....	18
Examining the Header File.....	20
Global Variables and Defines.....	20
Pseudo-functions.....	22

## 3 The Curses Library

Introduction .....	25
Using the Curses Library.....	26

The Spreadsheet Program.....	26
The Curses Functions .....	29
Initialize and Terminate Curses .....	30
Cursor Location Utilities .....	32
Adding Characters to the Screen Image .....	34
Standout Mode.....	38
Getting Characters from the Terminal .....	40
Input Modes.....	41
Erasing and Clearing.....	45
Creating and Removing Multiple Windows.....	49
Window-SpecificFunctions .....	52
Manipulating Multiple Windows .....	53
Miscellaneous Functions .....	57
Low-level Termcap Routines .....	60
Terminal Manipulation .....	61

<b>Sample Program .....</b>	<b>63</b>
-----------------------------	-----------

## **Quick Reference**

Window-Specific Functions .....	71
Move and Act Functions .....	71
