

CONTENTS

CONFERENCE SUMMARY	1
OPENING SESSION	
Opening Address.....	13
<i>A. Dulanto Rencoret</i>	
Opening Address.....	15
<i>R. Hojman</i>	
Opening Address.....	17
<i>T. Taniguchi</i>	
RESEARCH REACTOR SAFETY (Session 1)	
Safety features of the replacement research reactor (IAEA-CN-100/32)	25
<i>M. Summerfield, V. Garea</i>	
A risk perspective for the replacement research reactor in Australia (IAEA-CN-100/17)	45
<i>J. Barón, J. Núñez McLeod, S. Rivera</i>	
Assessment of the safety options for the Jules Horowitz Reactor (RJH) (IAEA-CN-100/70)	57
<i>D. Rive, L. Bertrand, J. Couturier</i>	
Safety aspects of cold neutron sources in research reactors (IAEA-CN-100/72)	71
<i>K.H. Gobrecht, J.-M. Astruc</i>	
Research reactors that look similar but are quite different (IAEA-CN-100/14)	79
<i>C.M. Mazufri, A.S. Doval</i>	
Transient thermal-hydraulic modelling of ETRR-2 for off-site power loss (IAEA-CN-100/64)	91
<i>A.H. Mariy, S.E. El-Morshdy, H.A. Khater, A.A. Abdel-Raouf</i>	
Regulatory control of research reactors and critical assemblies in Argentina (IAEA-CN-100/07)	107
<i>C.D. Perrin</i>	
Focus on defence in depth in regulatory assessment (IAEA-CN-100/33)	119
<i>B. Lawrence, V. Diamond, D. Macnab</i>	

Safety requirements applied to research reactors in France (IAEA-CN-100/69)	131
<i>H. Abou Yehia, G. Bars</i>	
Regulatory aspects and experience with Russian research reactors (IAEA-CN-100/123)	145
<i>S.I. Morozov</i>	
Regulatory practice in a country operating one nuclear research reactor (IAEA-CN-100/108)	151
<i>A.T. Mikulski</i>	
Safety re-evaluation of research reactors: A new trend in license requirements (IAEA-CN-100/104)	167
<i>J.P. Boogaard, H.T. Wiersema</i>	
Challenges in updating a generic safety analysis report after 22 years of technological and regulatory progress (IAEA-CN-100/53)	177
<i>G.G. Kennedy, D.J. Winfield</i>	
ISO 9001 and ISO 14001. An integrated quality management system for an MTR facility: SAFARI-1 research reactor (IAEA-CN-100/129)	185
<i>J.F. du Bruyn, C.S.B. Piani</i>	
Reactor protection systems: Diverse approaches (IAEA-CN-100/25)	193
<i>C.A. Verrastro, D.S. Estryk, J.C. Carballido</i>	
Thermohydraulic design and safety analysis of research reactors (IAEA-CN-100/137)	205
<i>A. Hainoun</i>	
Experience with probabilistic safety assessment for the BR2 reactor (IAEA-CN-100/39)	217
<i>S. Declercq, P. Gubel, F. Joppen, E. Koonen</i>	
Engineering considerations and experience related to refurbishment and safety upgrading of the 40 MW(th) CIRUS research reactor (IAEA-CN-100/87)	227
<i>A.V. Kharpate</i>	
Comprehensive in-service inspection of Kartini reactor tank liner and fitness for continued operation (IAEA-CN-100/89)	243
<i>S. Syarip, P. Stathers</i>	
Development of modern safe systems of work at the Imperial College Reactor Centre and their application to neutron detector testing and nuclear training courses (IAEA-CN-100/132)	249
<i>D.S. Bond, L. Howard, H.J. Phillips, S.J. Franklin, N.J. Chapman</i>	

Safety Culture Assessment Programme:

Statistical analysis of a survey conducted at the IEA-R1 Brazilian research reactor (IAEA-CN-100/48)	263
<i>P.S.P Oliveira, R.N. Saxena</i>	
Improving the safe operation and new open policy at the VR-1 reactor (IAEA-CN-100/58)	279
<i>L. Sklenka, K. Matejka, M. Kropík</i>	

RESEARCH REACTOR UTILIZATION (Session 2)

Indian experience in neutron beam utilization: In-house and collaborative programmes (IAEA-CN-100/85)	291
<i>M. Ramanadham, S.K. Paranjpe, S.L. Chaplot, R. Mukhopadhyay</i>	
Geochronology by the $^{40}\text{Ar}/^{39}\text{Ar}$ method at the Sernageomin Laboratory, Santiago, Chile (IAEA-CN-100/55)	299
<i>C. Pérez de Arce, S. Matthews, J. Klein</i>	
FiR 1 reactor in service for boron neutron capture therapy (BNCT) and isotope production (IAEA-CN-100/67)	313
<i>I. Aueterinen, S. Salmenhaara</i>	
Role of the TAPIRO fast research reactor in neutron capture therapy in Italy: Calculations and measurements (IAEA-CN-100/97)	325
<i>G. Rosi, S. Agosteo, K.W. Burn, L. Casalini, E. Nava, M. Sarotto, M. Cortesi, G. Gambarini, S. Gay, F. D'Errico</i>	
A coupled calculational system for optimal in-core fuel management in research reactors (IAEA-CN-100/02)	339
<i>H. Mazrou, M. Hamadouche</i>	
Neutronic design of a cold neutron source with MCNP (IAEA-CN-100/12)	353
<i>D.F. Hergenreder, C. Lecot, O. Lovotti</i>	
Statistical processing of calculated reaction rates (IAEA-CN-100/61) ...	365
<i>Z. Lahodova, J. Ernest, S. Flibor, M. Marek, J. Rataj, L. Viererbl</i>	
Thermal neutron self-shielding factor in foils: A universal curve (IAEA-CN-100/111)	375
<i>I.F. Gonçalves, E. Martinho, J. Salgado</i>	
A set of programs for experimental data processing of focusing configurations (IAEA-CN-100/117)	383
<i>I. Ionita, N.C. Popa</i>	
Core management and calculation tools for the WWR-M research reactor in Ukraine (IAEA-CN-100/131)	395
<i>Y.P. Mahlers</i>	

Neutronic design of the first core of the replacement research reactor (IAEA-CN-100/18)	403
<i>E. Villarino, S. Gomez, V. Ishida</i>	
Optimization calculations at TR-2 (IAEA-CN-100/141)	415
<i>M.H. Turgut, A. Aytakin</i>	
Core management of the Dalat nuclear research reactor (IAEA-CN-100/134)	429
<i>Pham Van Lam, Le Vinh Vinh, Huynh Ton Nghiem, Nguyen Kien Cuong, Luong Ba Vien</i>	
Reactor simulator development facility for operating personnel training (IAEA-CN-100/15)	441
<i>A. Etchepareborda, C.A. Flury, F. Maciel, D. Alegrechí, G. Ibarra, M. Muguiro, F. Lema, M. Giménez, M. Schlamp, A. Vertullo</i>	
Utilization programme of Hanaro: Present and future (IAEA-CN-100/102)	457
<i>Y.J. Kim, B.J. Jun, K.B. Park, I.H. Kuk</i>	
Enhancement in the utilization of IEA-R1 research reactor for radioisotope production and research (IAEA-CN-100/43)	467
<i>R.N. Saxena, R. Fulfaro</i>	
New IPEN-CNEN/SP neutron powder diffractometer (IAEA-CN-100/45)	477
<i>C.B.R. Parente, V.L. Mazzocchi, Y.P. Mascarenhas</i>	
Eight years of neutron activation analysis in Ghana using a low power research reactor (IAEA-CN-100/80)	491
<i>B.J.B. Nyarko, E.H.K. Akaho, Y. Serfor-Armah, E.K. Osae</i>	
Extensive utilization of training reactor VR-1 (IAEA-CN-100/59)	499
<i>K. Matejka, L. Sklenka</i>	
Teaching and training at RA-6 reactor and their contribution to the research facilities development (IAEA-CN-100/20)	507
<i>O. Calzetta Larrieu, H. Blaumann</i>	
The contribution to international safeguards and security by a small university research reactor (IAEA-CN-100/34)	515
<i>H. Böck, M. Villa</i>	
Current tendencies and perspectives of the development of research reactors in the Russian Federation (IAEA-CN-100/125)	527
<i>N.V. Arkhangelsky, B.A. Gabaraev, V.V. Kchmelschikov, Yu.N. Kuznetsov, I.T. Tretyakov</i>	

RESEARCH REACTOR DECOMMISSIONING AND WASTE MANAGEMENT (Session 3)

International radiation safety recommendations on decommissioning (IAEA-CN-100/84)	545
<i>L. Jova Sed, D. Reisenweaver</i>	
Implementation of Stage-3 decommissioning of the Triton facility (IAEA-CN-100/75)	557
<i>E. Lopes, L. Pillette-Cousin</i>	
Experience with partial decommissioning of PARR-1 (5 MW) for core conversion and power upgrade (IAEA-CN-100/107)	569
<i>M. Israr, Q.D. Shami, S. Pervez</i>	
Decommissioning Russian research facilities (IAEA-CN-100/121)	573
<i>S.I. Morozov</i>	
SAFARI-1: Planning for MTR decommissioning according to IAEA guidelines (IAEA-CN-100/128)	579
<i>C.S.B. Piani, L.J. Shayi</i>	
International decommissioning strategies (IAEA-CN-100/83)	593
<i>L. Jova Sed, D. Reisenweaver</i>	
'Green Vinca' — Vinca Institute nuclear decommissioning programme (IAEA-CN-100/135)	603
<i>M. Pešić, K. Subotic, V. Ljubenov, O. Šotic</i>	
Innovation in radioactive wastewater stream management (IAEA-CN-100/62)	613
<i>A. Karameldin</i>	

FUEL MANAGEMENT (Session 4)

Russian Research Reactor Fuel Return Programme (IAEA-CN-100/143)	631
<i>T. Dedik, I. Bolshinsky, A. Krass</i>	
Effect of coupon orientation on corrosion behaviour of aluminium alloy coupons in the spent fuel storage section of the IEA-R1 research reactor (IAEA-CN-100/44)	637
<i>O.V. Correa, R.M. Lobo, S.M.C. Fernandes, G. Marcondes, L.V. Ramanathan</i>	
Study of the effect of sedimented particles on the corrosion behaviour of aluminium clad spent fuel during storage in water (IAEA-CN-100/10)	645
<i>S. Rodríguez, L. Lanzani, A. Quiroga, R. Haddad, E. Silva</i>	

Encapsulation of nuclear spent fuel for semi-dry storage at the Budapest research reactor (IAEA-CN-100/81)	659
<i>S. Tözsér, T. Hargitai, I. Vidovszky</i>	
Corrosion of aluminium-clad spent fuel at RA research reactor (IAEA-CN-100/136)	677
<i>M. Pešić, T. Maksin, R. Dobrijevic, Z. Idjakovic</i>	
Chairpersons of Sessions and Secretariat of the Conference.....	687
Programme Committee.....	689
List of Participants.....	691
Author Index	715
Index of Papers by Number	717
