

CONTENTS

SUMMARY	1
1. TEST SITES	3
2. BACKGROUND ON THE NUCLEAR TESTING PROGRAMME IN ALGERIA.....	5
2.1. Historical information	5
2.2. Pre-survey estimation of the current radiological situation	5
2.2.1. Gerboise atmospheric tests	11
2.2.2. Underground tests	13
2.2.2.1. Béryl test	15
2.2.2.2. Améthyste test	15
2.2.3. Experiments with plutonium pellets	16
2.2.4. Pollen experiments	17
3. IAEA MISSION	17
3.1. Mission team	17
3.2. Mission itinerary	17
4. SAMPLING AND MEASUREMENT PROGRAMME	19
4.1. Introduction	19
4.1.1. Reggane	19
4.1.2. In Ekker (Taourirt Tan Afella and Adrar Tikertine)	19
4.2. Field measurements	19
4.3. Field sampling	20
4.3.1. Soil	20
4.3.2. Water	20
4.3.3. Vegetation	20
4.4. Results of sampling and measurements	20
4.4.1. Field measurements	20
4.4.1.1. Reggane.....	24
4.4.1.2. In Ekker — Taourirt Tan Afella	24
4.4.1.3. In Ekker — Adrar Tikertine.....	25
4.4.2. Laboratory measurements	26
4.4.3. Major conclusions based on the laboratory measurements	26
4.4.3.1. Samples from Reggane	27
4.4.3.2. Samples from In Ekker — Taourirt Tan Afella	27
4.4.3.3. Samples from In Ekker — Adrar Tikertine	27
5. ESTIMATES OF PRESENT AND FUTURE DOSES TO PERSONS ARISING FROM RESIDUAL RADIOACTIVE MATERIAL AT THE SITES	28
5.1. General methodology for calculating doses	28
5.2. Sources and pathways of exposure	28
5.2.1. Atmospheric test site at Reggane	29
5.2.2. Underground test site at In Ekker — Taourirt Tan Afella	29
5.2.3. Adrar Tikertine experimentation site	29
5.3. Radiation doses due to residues from nuclear testing	30
5.3.1. Reggane atmospheric test site	30

5.3.2. In Ekker — Taourirt Tan Afella underground test site	30
5.3.3. Adrar Tikertine experimentation site	31
6. CONCLUSIONS AND RECOMMENDATIONS	32
6.1. General discussion	32
6.2. Specific conclusions	32
6.2.1. Reggane	32
6.2.2. Taourirt Tan Afella	32
6.2.3. Adrar Tikertine	33
6.3. Recommendations	33
APPENDIX I: DETERMINATION OF ^{90}Sr , ^{241}Am , Pu AND GAMMA EMITTING RADIONUCLIDES IN THE SAMPLES COLLECTED IN ALGERIA	35
I.1. Radioisotopes analysed	35
I.2. Sample description	35
I.3. General procedure	35
I.4. Analytical procedures	35
I.5. Results and discussion	43
I.6. Conclusions	44
I.7. Personnel	46
APPENDIX II: ASSESSMENT OF RADIATION DOSES	47
II.1. Reggane	47
II.2. In Ekker — Taourirt Tan Afella	49
II.3. In Ekker — Adrar Tikertine	52
APPENDIX III: RADIOLOGICAL CONCEPTS IN THE CONTEXT OF NUCLEAR WEAPON TESTING	53
III.1. Radiological quantities and units	53
III.2. Radiological releases due to testing of nuclear weapons	54
III.3. Health effects of radiation exposure	55
APPENDIX IV: RADIATION PROTECTION CRITERIA	56
IV.1. General considerations	56
IV.2. Generic intervention levels	56
IV.3. Guidelines that may be applicable to chronic exposure situations	57
IV.4. Reference for comparison: Doses due to natural background radiation	58
IV.5. Generic guidance for rehabilitation of areas of chronic exposure	58
REFERENCES	59
