	PAGE
PREFACE ... ..	v
CHAPTER I	
THE SPECIAL PRINCIPLE OF RELATIVITY	
1. Introduction ... ..	1
2. Schematic Account of the Michelson-Morley Experiment ... ..	2
3. Pre-relativistic Length-contraction and Time- dilation ... ..	3
4. Inertial Frames ... ..	4
5. The Special Principle of Relativity ... ..	7
6. The Propagation of Light ... ..	10
7. Events. The Relativity of Space and Time ... ..	11
8. The Lorentz Transformation ... ..	13
Exercises I ... ..	21
CHAPTER II	
RELATIVISTIC KINEMATICS	
9. Introduction ... ..	25
10. Relativistic Length-Contraction ... ..	25
11. Relativistic Time-Dilation ... ..	28
12. Transformation of Velocities ... ..	34
Exercises II ... ..	37
CHAPTER III	
RELATIVISTIC OPTICS	
13. Introduction ... ..	43
14. The Doppler Effect ... ..	43
15. The Drag Effect ... ..	45
16. Aberration ... ..	46
17. Distance from Apparent Size and Brightness ... ..	48
Exercises III ... ..	51

CHAPTER IV  
SPACE-TIME

	PAGE
18. Introduction ... ..	54
19. The General Lorentz Transformation. Interval	54
20. 4-Tensors and Space-Time ... ..	56
21. Rules for the Manipulation of 4-Tensors ...	58
22. Proper Time ... ..	61
23. 4-Velocity and 4-Acceleration ... ..	62
24. The Light-Cone ... ..	64
Exercises IV ... ..	68

CHAPTER V  
RELATIVISTIC MECHANICS OF  
MASS POINTS

25. Introduction ... ..	73
26. Mass ... ..	75
27. Foundations of Relativistic Mechanics ... ..	75
28. The Variation of Inertial Mass ... ..	77
29. 4-Momentum and 4-Force ... ..	79
30. Transformation of the 3-Force ... ..	83
31. The Relation Between Mass and Energy ...	84
32. Varying Proper Mass ... ..	86
33. Examples of Mass-Energy Transmutations ...	88
34. Motion of a Charged Particle in a Magnetic Field	93
35. Photons. The Compton Effect ... ..	94
36. The Collision of Electrons ... ..	97
37. Orbits under a Coulomb Force ... ..	99
38. Relativistic Analytic Mechanics ... ..	103
Exercises V ... ..	107

CHAPTER VI  
RELATIVISTIC ELECTRODYNAMICS  
IN VACUO

39. Introduction ... ..	111
40. The Invariance of Charge. The Current Density 4-Vector ... ..	112

41. The Potential 4-Vector ... ..	113
42. Maxwell's Equations in Tensor Form ... ..	116
43. The Transformation Equations for $E$ and $H$ ...	119
44. The Force on a Moving Charge ... ..	120
45. The Potential due to a Moving Charge ... ..	123
46. The Electromagnetic Field due to a Uniformly Moving Charge ... ..	124
47. The Electromagnetic Energy Tensor ... ..	126
Exercises VI ... ..	130

CHAPTER VII  
WAVES

48. Introduction ... ..	133
49. Plane Waves and the Frequency 4-Vector ...	133
50. Electromagnetic Waves ... ..	135
51. Transformation of the Kinematic Characteristics of Plane Waves ... ..	139
52. De Broglie Waves ... ..	140
Exercises VII ... ..	144

CHAPTER VIII  
RELATIVISTIC MECHANICS OF  
CONTINUOUS MATTER

53. Introduction ... ..	148
54. Preliminaries ... ..	148
55. External and Internal Forces ... ..	150
56. Properties of $t^{\mu\nu}$ ... ..	152
57. The Augmented Momentum and Mass Densities	154
58. The Equations of Continuity and of Motion ...	157
59. The Mechanical Energy Tensor ... ..	159
60. Perfect Fluids and Incoherent Fluids ... ..	161
Exercises VIII ... ..	163

## APPENDIX

## TENSORS FOR SPECIAL RELATIVITY

	PAGE
A1. Introduction ... ..	167
A2. Preliminary Description of Tensors ... ..	167
A3. The Summation Convention ... ..	168
A4. Coordinate Transformations ... ..	169
A5. Definition of Tensors ... ..	170
A6. The Group Properties ... ..	172
A7. Examples of Tensors ... ..	172
A8. Combination of Tensors ... ..	173
A9. The Quotient Rule ... ..	174
A10. Differentiation of Tensors ... ..	175
A11. Raising and Lowering of Suffixes ... ..	175
A12. The Metric ... ..	177
Exercises A ... ..	178
BIBLIOGRAPHY ... ..	181
INDEX ... ..	183
