Acknowledgments.....	xxxv
About the Author.....	xxxvii

## ***Part I Historical and Regulatory Development***

<b>Chapter 1</b> Introduction.....	3
1.1 Definition of a Solid Waste.....	5
1.2 Categories of Wastes.....	5
1.2.1 Municipal Solid Waste.....	6
1.2.2 Hazardous Waste.....	8
1.2.3 Industrial Waste.....	8
1.2.4 Medical Waste.....	9
1.2.5 Universal Waste.....	9
1.2.6 Electronics Waste.....	10
1.2.7 Construction and Demolition Debris.....	10
1.2.8 Radioactive Waste.....	10
1.2.9 Mining Waste.....	11
1.2.10 Agricultural Waste.....	12
1.3 Generation of MSW.....	13
1.4 Solid Waste Management.....	15
1.4.1 Source Reduction.....	16
1.4.2 Recycling.....	16
1.4.3 Incineration.....	16
1.4.4 Land Disposal.....	18
1.4.5 Goals at the Federal Level.....	18
Questions.....	18
References.....	19
Suggested Readings and Websites.....	20
<b>Chapter 2</b> A Brief History of Waste Management.....	21
2.1 Introduction.....	21
2.2 Earliest Civilizations.....	21
2.3 Greece.....	22
2.4 Rome.....	22
2.5 Europe.....	23
2.6 United States.....	28
2.7 Recent Waste Management Initiatives.....	35
2.8 Solid Waste Incineration and Other Thermal Processes.....	36
2.9 Land Disposal and the Sanitary Landfill.....	40
2.10 Recycling/Reuse.....	43

Questions .....	44
References .....	44
<b>Chapter 3</b> Regulatory Development .....	47
3.1 Introduction .....	47
3.2 Significant U.S. Legislation .....	47
3.2.1 Solid Waste Disposal Act .....	47
3.2.2 Resource Recovery Act .....	48
3.2.3 Resource Conservation and Recovery Act .....	48
3.2.4 Solid Waste Management under RCRA .....	48
3.2.5 Hazardous Waste Management under RCRA .....	49
3.2.6 Underground Storage Tank Management .....	50
3.2.7 Amendments to RCRA .....	51
3.2.7.1 1980 Amendments .....	51
3.2.7.2 Comprehensive Environmental Response, Compensation, and Liability Act of 1980 .....	51
3.2.7.3 Hazardous and Solid Waste Amendments of 1984 .....	52
3.2.7.4 Medical Waste Tracking Act .....	52
3.2.7.5 Federal Facility Compliance Act .....	52
3.2.7.6 1996 Amendments .....	53
3.3 Other Recent Laws Affecting Waste Management .....	53
3.3.1 Public Utility Regulation and Policy Act of 1978 .....	53
3.3.2 Sanitary Food Transportation Act .....	54
3.3.3 Clean Air Act .....	54
3.3.4 Pollution Prevention Act .....	54
3.3.5 Indian Lands Open Dump Cleanup Act .....	54
3.3.6 Mercury-Containing and Rechargeable Battery Management Act .....	55
3.4 Relationship of RCRA with Other Environmental Statutes .....	55
3.5 Laws, Regulations, and Other Actions at the Federal Level .....	55
3.5.1 Lawmaking Process .....	55
3.5.2 Regulations .....	56
3.5.3 Policy and Guidance .....	57
3.5.4 Public Involvement in RCRA .....	58
Questions .....	58
References .....	59
Suggested Readings .....	59

## Part II Municipal Solid Wastes

<b>Chapter 4</b> Characterization of Solid Waste .....	63
4.1 Introduction .....	63
4.2 Sampling Protocols for MSW .....	63
4.2.1 Direct Sampling .....	63
4.2.2 Material Flows .....	64
4.2.3 Surveys .....	64
4.2.4 Multipliers for Projecting Waste Quantities .....	65
4.3 Variability Affecting Waste Sampling .....	66
4.3.1 Seasonal .....	66
4.3.2 Regional .....	67

4.3.3 Household .....	68
4.3.4 National Economy .....	68
4.4 Common Components in Municipal Solid Waste .....	68
4.4.1 Paper Products .....	68
4.4.2 Glass .....	71
4.4.3 Aluminum .....	71
4.4.4 Ferrous Metals .....	71
4.4.5 Other Nonferrous Metals .....	71
4.4.6 Plastics .....	72
4.4.7 Rubber and Leather .....	73
4.4.8 Textiles .....	74
4.4.9 Food Wastes .....	74
4.4.10 Yard Waste .....	74
4.4.11 Household Hazardous Wastes .....	75
4.4.11.1 Toxic Metals .....	76
4.4.11.2 Organic Compounds .....	77
4.5 Chemical Properties of MSW .....	78
4.5.1 Ultimate Analysis of Solid Waste Components .....	78
4.5.2 Proximate Analysis of MSW .....	82
4.5.3 Energy Content of MSW .....	82
4.5.4 Fusion Point of Ash .....	86
4.5.5 Content of Nutrients and Other Substrates .....	86
4.5.6 Carbohydrates .....	88
4.5.7 Crude Fibers .....	88
4.5.8 Proteins .....	89
4.5.9 Lipids .....	90
4.5.10 Biodegradability of MSW Fractions .....	90
4.6 Physical Properties of MSW .....	90
4.6.1 Density .....	90
4.6.2 Moisture Content .....	93
4.6.3 Particle Size Distribution .....	94
4.6.4 Field Capacity .....	96
4.6.5 Hydraulic Conductivity of Compacted Waste .....	97
Questions .....	97
Exercise: Waste Characterization .....	99
References .....	99
Suggested Readings .....	100

## Chapter 5 Municipal Solid Waste Collection .....

5.1 Introduction .....	103
5.2 Developing a Waste Collection System .....	103
5.2.1 Characterization of Wastes .....	103
5.2.2 Service Area and Level of Service .....	103
5.2.3 Public versus Private Collection .....	104
5.2.4 Funding the Collection System .....	104
5.3 Logistics of the Collection Program .....	105
5.3.1 Storage Container Requirements .....	105
5.3.2 Set-Out Requirements .....	105
5.3.3 Waste Separation .....	105
5.3.4 Frequency of Collection .....	106

5.3.5	Waste Pickup Locations .....	106
5.3.6	Collection Equipment.....	107
5.3.7	Automated Waste Collection.....	108
5.3.8	Developing Collection Routes.....	111
5.3.9	Route Development .....	112
5.3.10	Waste Transfer.....	113
5.3.11	Types of Transfer Stations.....	113
5.3.11.1	Small to Medium Transfer Stations (Capacity of Less than 100–500 Tons per Day).....	116
5.3.11.2	Large Transfer Stations.....	116
5.3.11.3	Transfer Station Design Considerations .....	117
5.3.12	Transfer Vehicles.....	120
5.3.12.1	Trucks and Semitrailers.....	120
5.3.12.2	Rail Cars.....	120
	Questions.....	120
	References .....	121
	Suggested Readings.....	122
<b>Chapter 6</b>	<b>Recycling Solid Wastes .....</b>	<b>125</b>
6.1	Introduction .....	125
6.2	Recycling Terminology .....	126
6.3	Recycling Progress and Statistics.....	127
6.4	Recovery and Markets for Components of the Waste Stream.....	128
6.5	Market Issues.....	128
6.6	Purity of Materials.....	129
6.7	Paper.....	129
6.7.1	Paper Manufacture .....	129
6.7.2	Paper Recycling.....	131
6.7.3	Other Paper Markets .....	133
6.7.4	Benefits of Paper Recycling .....	134
6.8	Glass.....	134
6.8.1	Glass Manufacture .....	134
6.8.2	Glass Recycling.....	134
6.8.3	Glass Recycling Process.....	135
6.8.4	Color.....	136
6.8.5	Contamination.....	136
6.8.6	Glass Markets.....	137
6.8.7	Container Glass.....	137
6.8.8	Other Uses for Recycled Glass.....	137
6.8.9	Benefits of Glass Recycling.....	138
6.9	Aluminum.....	139
6.9.1	Aluminum Manufacturing .....	139
6.9.2	Aluminum Recycling .....	140
6.9.3	Specifications for Recovered Aluminum .....	142
6.9.4	Benefits of Aluminum Recycling.....	142
6.9.5	One Final Note on Aluminum.....	143
6.10	Ferrous Metals.....	143
6.10.1	Steel Manufacture .....	143
6.10.2	Ferrous Recycling.....	145
6.10.3	Benefits of Ferrous Recycling.....	147

6.11	Plastics.....	148
6.11.1	Plastics Manufacture .....	148
6.11.2	Extrusion .....	149
6.11.3	Blow Molding.....	150
6.11.4	Injection Molding.....	150
6.11.5	Compression Molding .....	151
6.11.6	Plastics Recycling.....	151
6.11.7	Processing for Recycling.....	152
6.12	Yard Waste.....	153
6.13	Food Waste .....	154
6.14	Tires and Rubber .....	154
6.14.1	Design and Manufacture .....	154
6.14.2	Disposal and Recycling.....	154
6.14.2.1	Recycling .....	158
6.14.2.2	Crumb Rubber .....	158
6.14.2.3	Retreaded Tires.....	158
6.15	Goals for the Nation .....	158
	Questions.....	160
	References .....	161
	Suggested Readings.....	163
<b>Chapter 7</b>	<b>Municipal Solid Waste Processing: Materials Recovery Facilities.....</b>	<b>165</b>
7.1	Introduction .....	165
7.2	Materials Recovery Facility .....	165
7.2.1	Unit Operations .....	166
7.2.2	Weigh Station .....	166
7.2.3	Receiving Area.....	167
7.2.4	Storage Area.....	167
7.2.5	Mobile Equipment in the MRF.....	170
7.2.6	Fixed Equipment in the MRF .....	171
7.2.7	Conveyors.....	171
7.2.8	Scales.....	174
7.3	Materials Recovery at MRF Unit Operations .....	175
7.4	Materials Separation and Processing at the MRF.....	176
7.4.1	Hand-Sorting.....	176
7.4.2	Screening.....	177
7.4.2.1	Trommel Screens .....	177
7.4.2.2	Disk Screens .....	181
7.4.2.3	Vibrating Screens .....	182
7.4.3	Size Reduction.....	182
7.4.3.1	Compactors .....	182
7.4.3.2	Balers .....	182
7.4.3.3	Densifiers .....	184
7.4.3.4	Shredders .....	184
7.4.3.5	Hammermills.....	185
7.4.3.6	Horizontal-Shaft Hammermills.....	187
7.4.3.7	Vertical-Shaft Hammermills .....	187
7.4.3.8	Rotary Shear.....	189
7.4.3.9	Flail Mill.....	189
7.4.3.10	Hammer Wear.....	189

7.4.3.11	Safety Issues Related to Size Reduction.....	190
7.4.4	Magnetic Separation.....	191
7.4.5	Eddy Current Device.....	195
7.4.6	Air Classifier.....	195
7.4.7	Efficiency of Separation in an Air Classifier.....	199
7.4.8	Miscellaneous Processing.....	201
7.4.8.1	Dryers.....	201
7.5	Materials Flow in the MRF.....	202
7.6	Contamination Issue.....	202
7.7	Environmental Control.....	204
7.7.1	Dust Collection.....	204
7.7.2	Odors and Their Control.....	204
7.7.3	Noise Suppression.....	205
7.7.4	Aesthetics.....	206
	Questions.....	206
	References.....	207
	Suggested Readings.....	208

## Chapter 8 Composting MSW.....209

8.1	Introduction.....	209
8.2	Benefits of Composting.....	209
8.3	Overview of the Composting Process.....	210
8.4	Role of Microorganisms in Composting.....	210
8.5	Factors Affecting the Composting Process.....	212
8.5.1	Preprocessing of the Feedstock.....	213
8.5.2	Environmental Factors.....	213
8.5.3	Nutrients.....	214
8.5.4	C:N Ratio.....	214
8.5.5	Aeration.....	214
8.5.6	Moisture Content.....	218
8.5.7	Temperature.....	218
8.5.8	pH.....	219
8.6	Composting Stage.....	219
8.6.1	Turned Piles.....	220
8.6.2	Turned Windrows.....	220
8.6.3	Aerated Static Piles.....	221
8.6.4	In-Vessel Systems.....	222
8.7	Curing Stage.....	222
8.8	Environmental Concerns during Composting.....	223
8.8.1	Air Quality.....	224
8.8.2	Odor.....	224
8.8.3	Noise.....	225
8.8.4	Toxins within the Pile.....	225
8.8.5	Leachate.....	227
8.8.6	Runoff.....	228
8.8.7	Vectors.....	229
8.8.8	Fires.....	229
8.8.9	Litter.....	229
8.9	Occupational Health and Safety Concerns during Composting.....	230

8.9.1	Bioaerosols.....	230
8.9.2	Potentially Toxic Chemicals.....	231
8.10	Facility Siting.....	231
8.10.1	Topography.....	232
8.10.2	Land Area Requirements.....	232
8.10.3	Other Factors Affecting Siting Decisions.....	233
8.11	Design.....	233
8.11.1	Preprocessing Area.....	233
8.11.2	Processing Area.....	233
8.11.3	Buffer Zone.....	234
8.11.4	Site Facilities and Security.....	234
8.12	MSW Composting by Anaerobic Processes.....	234
8.12.1	Process Description.....	235
8.12.2	Subsystems.....	236
	Questions.....	237
	Exercise: Soil and Groundwater Quality at a Composting Facility.....	238
	References.....	240
	Suggested Readings.....	241

## Chapter 9 Incineration of MSW.....243

9.1	Introduction.....	243
9.2	Combustion Concepts.....	243
9.3	Mass-Burn Incinerator.....	246
9.4	Environmental Considerations of Mass Burn.....	250
9.4.1	Fuel Quality.....	250
9.4.2	Resource Recovery.....	250
9.4.3	Air Quality.....	250
9.4.4	Particulates.....	251
9.4.5	Acid Gases.....	252
9.4.6	Trace Gases.....	253
9.4.7	Toxic Metals.....	257
9.4.8	Aesthetics.....	259
9.5	Air Pollution Control.....	260
9.5.1	Electrostatic Precipitator.....	260
9.5.2	Fabric Filters (Baghouses).....	261
9.5.3	Gas Washing.....	264
9.6	Ash Quality from Mass Burn.....	266
9.6.1	Metals.....	268
9.6.2	Health Effects of Metals in Incinerator Ash.....	268
9.6.3	Leachability of Metals in Incinerator Ash.....	268
9.6.4	Ash Management.....	270
9.7	MSW Incineration in the United States: The Future.....	271
9.8	Refuse-Derived Fuel.....	271
9.8.1	Overview of RDF Preparation.....	272
9.8.2	Grades of RDF.....	272
9.8.3	Properties of RDF.....	272
9.8.4	Utilization of RDF: Practical Issues.....	274
9.8.5	Gaseous Emissions and Corrosion Issues.....	276
9.8.6	Properties of RDF Ash.....	276

9.8.7	Process-Engineered Fuel.....	277
9.8.8	Tire-Derived Fuel.....	278
	Questions.....	278
	References.....	279
	Suggested Readings.....	282
<b>Chapter 10</b>	<b>The Sanitary Landfill.....</b>	<b>283</b>
10.1	Introduction.....	283
10.2	Relevant Definitions under the RCRA Regulations.....	283
10.3	Siting the Landfill.....	284
10.3.1	Airport Safety.....	284
10.3.2	Floodplains.....	285
10.3.3	Wetlands.....	285
10.3.4	Fault Areas.....	285
10.3.5	Seismic Impact Zones.....	285
10.3.6	Unstable Areas.....	286
10.4	Requirements of Operation.....	286
10.4.1	Receipt of Hazardous Waste.....	286
10.4.2	Inspections.....	287
10.4.3	Training.....	288
10.4.4	Landfill Design.....	289
10.4.5	Clay Liners.....	289
10.4.6	Hydraulic Conductivity.....	291
10.4.7	Geomembrane Liners.....	292
10.4.8	Compatibility of Liners with Wastes.....	293
10.4.9	Survivability Tests.....	295
10.4.10	Permeability.....	295
10.4.11	Stress.....	297
10.4.12	Geomembrane Liner Handling and Placement.....	297
10.4.13	Construction Quality Assurance.....	298
10.4.14	Daily Operations and Issues.....	299
10.4.14.1	Filling Sequences.....	299
10.4.14.2	Cover Materials.....	301
10.4.14.3	Disease Vector Control.....	302
10.4.14.4	Biological Control of Pests.....	302
10.4.14.5	Generation of Landfill Gases.....	304
10.4.14.6	Predicting Gas Production.....	307
10.4.14.7	Control of Explosive Gases.....	310
10.4.15	Trace Gases.....	312
10.4.16	Landfill Gas Control.....	312
10.4.16.1	Passive Systems.....	313
10.4.16.2	Active Systems.....	315
10.4.17	Gas Utilization.....	315
10.4.18	Other Air Criteria.....	319
10.4.19	Public Access.....	319
10.4.20	Control of Run-on and Runoff.....	319
10.4.21	Management of Surface Water.....	319
10.4.22	Restrictions on Liquids in Landfills.....	320
10.4.23	Leachate Formation.....	322
10.4.23.1	Estimation of Leachate Volume Produced.....	322

10.4.23.2	Leachate Collection and Removal System.....	327
10.4.23.3	Area Collector.....	328
10.4.24	Geosynthetic Materials.....	328
10.4.25	Collection Laterals.....	330
10.4.26	Sumps.....	332
10.4.27	Leachate Treatment.....	332
10.4.28	Groundwater Monitoring and Corrective Action.....	332
10.4.29	Record Keeping.....	333
10.5	Closure.....	333
10.5.1	Low-Permeability (Barrier) Layer.....	335
10.5.2	Drainage Layer.....	335
10.5.3	Erosion Control Layer.....	335
10.5.4	Gas Collection System.....	336
10.5.5	Landfill Cap.....	336
10.5.6	Subsidence Effects.....	337
10.5.7	Weather Effects.....	337
10.6	Postclosure.....	337
10.7	Bioreactor Landfill.....	338
10.7.1	Anaerobic Bioreactors.....	339
10.7.2	Aerobic Bioreactor.....	340
10.7.3	Anaerobic vs. Aerobic.....	341
10.7.4	Hybrid Bioreactors (Sequential Aerobic–Anaerobic).....	341
10.7.5	Practical Operational Issues.....	341
10.7.5.1	Waste Preprocessing.....	341
10.7.5.2	Daily Cover.....	341
10.7.5.3	Liquid Addition and Recirculation.....	341
10.7.5.4	Alternative Liquid Sources.....	341
10.7.5.5	Fires.....	342
10.7.6	Other Considerations.....	342
10.7.6.1	Leachate Strength Reduction.....	342
10.7.6.2	Waste Mass Shear Strength.....	342
10.7.6.3	Waste Settlement.....	342
10.7.6.4	Metals.....	343
10.7.6.5	Advantages of Bioreactor Landfills.....	343
10.7.6.6	Summary of Bioreactor Landfills.....	344
10.8	Landfill Reclamation.....	344
	Questions.....	345
	Exercise: Groundwater Quality at a Midwest Landfill.....	347
	References.....	348
	Suggested Readings.....	350

## Part III Hazardous Waste Management

<b>Chapter 11</b>	<b>Identification of Hazardous Waste.....</b>	<b>355</b>
11.1	Introduction.....	355
11.2	RCRA Subtitles.....	355
11.3	Subtitle C: The Hazardous Waste Management Program.....	357
11.3.1	Definition of a Solid Waste.....	357
11.3.2	What Is a Hazardous Waste?.....	358

11.3.3	Exemptions and Exclusions .....	358
11.3.4	Hazardous Waste Lists .....	359
11.3.4.1	Hazardous Wastes from Nonspecific Sources .....	359
11.3.4.2	Hazardous Wastes from Specific Sources .....	359
11.3.4.3	Discarded Commercial Products, Off-Specification Materials, Container Residues, and Spill Residues .....	359
11.3.5	Characteristic Tests .....	360
11.3.6	Ignitability .....	360
11.3.7	Corrosivity .....	360
11.3.8	Reactivity .....	361
11.3.9	Toxicity .....	361
11.3.10	Mixtures of Hazardous Wastes with Other Materials .....	363
11.3.11	Mixture Rule .....	363
11.3.12	Contained-in Rule .....	364
11.3.13	Derived-from Rule .....	364
11.4	Generation of Hazardous Wastes .....	364
11.4.1	Quantities of Toxics Release Inventory Chemicals in Waste by Industry .....	364
11.4.2	Quantities of TRI Chemicals in Waste by Chemical .....	365
	Questions .....	366
	References .....	370
	Suggested Readings and Websites .....	370
<b>Chapter 12</b>	<b>Hazardous Waste Generator Requirements .....</b>	<b>371</b>
12.1	Introduction .....	371
12.2	Determining the Generator Category .....	371
12.3	Generator Types .....	372
12.3.1	LQG .....	372
12.3.2	SQG .....	372
12.3.3	EPA Waste Codes for Common SQG Wastes .....	372
12.3.4	Conditionally Exempt SQG .....	378
12.3.5	Episodic Generators .....	379
12.4	Requirements for LQGs and SQGs .....	379
12.4.1	EPA Identification Number .....	379
12.4.2	Managing Hazardous Waste On-Site .....	382
12.4.3	Requirements for New Tank Systems .....	383
12.4.4	Containment Buildings .....	383
12.4.5	Emergency Preparation .....	383
12.4.6	Emergency Response .....	384
12.4.7	Personnel Training .....	385
12.4.8	Emergency Response Requirements for SQGS .....	385
12.4.9	Reporting .....	385
12.4.10	Shipment of Wastes Off-Site .....	386
12.4.11	Uniform Hazardous Waste Manifest .....	386
12.4.12	Record Keeping .....	386
12.4.13	Management of Empty Containers .....	386
12.4.14	Hazardous Waste at Satellite Accumulation Points .....	390
12.5	Requirements of CESQGs .....	390
12.A.1	Appendix: Hazardous Waste Management Scenarios .....	390
12.A.1.1	Introduction .....	390

12.A.1.2	The Scenarios .....	390
12.A.1.3	Responses to Questions about Scenarios .....	397
	Questions .....	400
	References .....	401
	Suggested Readings and Websites .....	402
<b>Chapter 13</b>	<b>Hazardous Waste Transportation .....</b>	<b>403</b>
13.1	Introduction .....	403
13.2	Modes of Hazardous Waste Transportation .....	404
13.3	Transportation Requirements .....	405
13.3.1	Shipping Papers .....	405
13.3.2	Uniform Hazardous Waste Manifest .....	406
13.3.3	Hazard Communication .....	406
13.3.3.1	Identification of the Waste Being Transported .....	406
13.3.3.2	Hazardous Materials Table .....	406
13.3.3.3	Hazardous Material Classes .....	408
13.3.3.4	Packing Groups .....	410
13.3.3.5	Identification Numbers .....	410
13.3.3.6	Placards, Labels, and Markings .....	414
13.3.3.7	Hazard Warning Labels .....	414
13.3.3.8	Marking .....	415
13.3.3.9	Packaging .....	418
13.4	Emergency Response Information .....	421
13.5	Segregation (49 CFR Part 177, Subpart C) .....	421
13.6	Hazardous Materials Incidents (49 CFR Part 171) .....	422
13.6.1	Immediate Notice of Certain Hazardous Materials Incidents (49 CFR 171.15) .....	422
13.6.2	Hazardous Materials Incidents Reports (49 CFR 171.16) .....	425
13.A.1	Appendix: Hazardous Waste Management Scenarios .....	428
13.A.1.1	Introduction .....	428
13.A.1.2	Scenarios .....	428
13.A.1.3	Responses to Scenarios .....	430
	Questions .....	431

<b>Chapter 15</b>	<b>Incineration of Hazardous Wastes</b>	<b>451</b>
15.1	Introduction	451
15.2	Combustion and Its Residues	452
15.3	Overview of Regulatory Requirements	453
15.4	Combustion Standards under RCRA, Subpart O	453
15.4.1	Organic Compounds	453
15.4.2	Hydrogen Chloride	454
15.4.3	Particulate Matter	455
15.4.4	Fugitive Emissions	456
15.4.5	Metals	456
15.4.6	Waste Analysis	456
15.4.7	Operating Conditions and the RCRA Permit	456
15.4.8	Obtaining the RCRA Permit	457
15.4.9	Monitoring and Inspections	458
15.4.10	Management of Residues	458
15.4.11	Closure	458
15.5	MACT Standards under the CAA	459
15.5.1	Organics	459
15.5.2	HCl and Chlorine Gas	459
15.5.3	Particulate Matter	459
15.5.4	Metals	459
15.5.5	Operating Requirements	459
15.5.6	Additional Requirements	460
15.6	Incineration Devices	460
15.6.1	Liquid Injection	461
15.6.2	Air Requirements in Liquid Injectors	463
15.6.3	Overview of Liquid Injection	464
15.6.4	Rotary Kilns	464

15.6.5	Overview of Rotary Kiln Incineration	467
15.6.6	Boilers and Industrial Furnaces	467
15.6.7	Industrial Boilers	468
15.6.8	Cement Kilns	468
15.7	Air Pollution and its Control	470
15.7.1	Atmospheric Products from Combustion	470
15.7.2	Products of Incomplete Combustion	471

## Part IV Special Categories of Waste

<b>Chapter 18</b>	Universal Wastes .....	517
18.1	Introduction .....	517
18.2	Universal Wastes Defined .....	518
18.3	Categories of Universal Waste Handlers .....	519
18.3.1	Large Quantity Handlers .....	519
18.3.2	Small Quantity Handlers .....	519
18.4	Management of Universal Wastes .....	519
18.4.1	Universal Waste Batteries .....	519
18.4.2	Lead-Acid Battery Recycling .....	520
18.4.3	Nickel-Cadmium Battery Recycling .....	521
18.4.4	Universal Waste Pesticides .....	521
18.4.5	Universal Waste Thermostats .....	521
18.4.6	Universal Waste Lamps .....	522
18.5	Response to Releases .....	524
18.6	Tracking Universal Waste Shipments .....	524
18.7	Small Quantity Handlers of Universal Waste .....	525
18.8	Universal Waste Transporters .....	525
18.9	Destination Facilities .....	526
18.10	Responsibility of the States .....	527
	Questions .....	529
	References .....	529
	Further Readings and Websites .....	530
<b>Chapter 19</b>	Management of Used Oil .....	531
19.1	Introduction .....	531
19.2	Production and Properties of Lubricating Oils .....	531
19.3	Chemical Composition of Used Motor Oil .....	532
19.4	Chemical and Physical Changes of Oil during Engine Operation .....	533
19.5	Potential Hazards with Used Oil .....	533
19.6	History of Used Oil Management .....	535
19.7	Requirements of the Used Oil Management Standards .....	537
19.7.1	Used Oil Generators .....	537
19.7.2	Used Oil Collection Centers .....	537

19.7.3	Marketers of Used Oil .....	537
19.7.4	Transporters and Transfer Facilities .....	538
19.7.5	DOT Requirements .....	538
19.7.6	Used Oil Recycling .....	538
19.8	Used Oil Recycling Methods .....	539
19.8.1	Re-Refining .....	539
19.8.2	Slipstreaming .....	540
19.8.3	Processing .....	540
19.8.4	Direct Burning .....	541
19.8.5	Off- vs. On-Specification Used Oil .....	541
19.9	Disposal .....	543
19.9.1	Prohibitions .....	543
19.9.2	Exemption from CERCLA Liability .....	543
19.A.1	Appendix: Scenarios .....	543
19.A.1.1	Responses to Scenarios .....	544
	Questions .....	545
	References .....	546
	Suggested Readings .....	547
<b>Chapter 20</b>	Medical and Infectious Wastes .....	549
20.1	Introduction .....	549
20.2	Medical Waste Tracking Act .....	549
20.3	Definitions and Sources of Medical Waste .....	550
20.3.1	Potentially Infectious Waste .....	551
20.3.2	Regulated Medical Waste (40 CFR Part 259.30) .....	551
20.3.3	Exemptions to the Definition of RMW .....	552
20.3.4	RCRA Hazardous Waste .....	552
20.3.5	Radioactive Waste .....	552
20.3.6	Mixtures .....	553
20.4	Management of Medical Wastes Prior to Transport .....	553
20.4.1	Handling and Packaging .....	553
20.4.2	Labeling and Marking Medical Waste .....	554
20.4.3	Generator Requirements .....	554
20.4.4	Transporter Requirements .....	555
20.4.5	Treatment and Disposal of Medical Waste .....	556
20.4.6	Requirements for the Destination Facility .....	556
20.4.7	Record Keeping .....	557
20.4.8	Disposal Options for Medical Waste .....	557
20.4.9	Incineration of Medical Waste .....	557
20.4.10	Regulatory Requirements for Medical Waste Incinerators .....	557
20.4.11	Siting Requirements .....	557
20.4.12	Operator Training and Qualification Requirements .....	557
20.5	Facility Operations .....	558
20.5.1	Waste Management Plan .....	558
20.5.2	Compliance and Performance Testing .....	558
20.5.3	Emission Limits .....	559
20.5.4	Monitoring Requirements .....	560
20.5.5	Documentation .....	560
20.5.6	Reporting and Record Keeping .....	561

20.6	Types of Medical Waste Incinerators .....	561
20.6.1	Rotary Kiln .....	562
20.6.2	Multiple-Chamber Incinerator .....	562
20.6.3	Controlled Air Incinerators .....	563
20.7	Modes of Incinerator Operation .....	564
20.8	Advantages and Disadvantages of Incineration .....	566
20.9	Microbial Inactivation .....	566
20.9.1	Autoclaving (Steam Sterilization) .....	568
20.9.2	Operational Issues .....	568
20.9.3	Testing the Efficiency of Sterilization by Autoclaving .....	569
20.9.4	Health Considerations with Autoclaving .....	570
20.9.5	Advantages and Disadvantages of Autoclaving .....	570
20.9.6	Chemical Disinfection .....	570
20.9.7	Types of Disinfection Agents .....	571
20.9.8	Testing the Efficiency of Chemical Disinfection .....	571
20.9.9	Operational Issues .....	573
20.9.10	FIFRA Registration .....	574
20.9.11	Advantages and Disadvantages of Chemical Disinfection .....	574
20.9.12	Microwave Irradiation .....	574
	Questions .....	574
	References .....	575
	Suggested Readings .....	576
<b>Chapter 21</b>	<b>Construction and Demolition Debris .....</b>	<b>577</b>
21.1	Introduction .....	577
21.2	Characteristics of C&D Debris .....	577
21.3	Management of C&D Debris .....	581
21.4	Management of Selected C&D Waste Components .....	581
21.4.1	Aggregate .....	581
21.4.2	Drywall (Sheetrock, Gypsum) .....	582
21.4.3	Wood Waste Recycling .....	584
21.4.4	Metals Recycling .....	584
21.4.5	Asphalt Shingles .....	584
21.4.6	Asbestos Shingles .....	585
21.5	Reduction of C&D Debris .....	585
21.6	Deconstruction .....	586
21.7	Hazardous Materials .....	587
	Questions .....	588
	References .....	588
	Suggested Readings .....	589
<b>Chapter 22</b>	<b>Electronics Waste .....</b>	<b>591</b>
22.1	Introduction .....	591
22.2	Major Types of Electronic Equipment .....	592
22.2.1	Personal Computers .....	594
22.2.2	Laptop Computers .....	594
22.2.3	Cathode Ray Tube Computer Monitors .....	594
22.2.4	Computer Central Processing Units .....	594
22.2.5	Computer Peripherals .....	595

22.2.6	Desktop Telecommunications Equipment (Telephones, Fax Machines) .....	595
22.2.7	Mainframe Computers and High-End Telecommunications Equipment .....	595
22.2.8	Televisions with CRTs .....	595
22.2.9	Flat Screen Televisions .....	595
22.2.10	Mobile Telephones .....	596
22.3	Hazards of e-Waste .....	596
22.3.1	Cathode Ray Tubes .....	597
22.3.2	Flat Screen TVs and Laptop Computers .....	598
22.4	RCRA and e-Wastes .....	599
22.4.1	Hazardous Waste .....	599
22.4.2	EPA CRT Rule .....	600
22.4.3	Circuit Boards .....	600
22.5	Electronics Recycling .....	600
22.5.1	Residential Collection Programs .....	601
22.5.2	Reuse and Resale .....	603
22.5.3	Deconstruction .....	603
22.5.4	Processing and Recycling e-Waste Components .....	604
22.5.4.1	CRT Glass .....	606
22.5.5	Metals .....	607
22.5.6	Circuit Boards .....	607
22.6	International Issues in Electronics Management .....	608
22.7	Barriers to Recycling e-Waste .....	609
22.8	Product Stewardship and Electronics .....	609
22.9	Conclusions .....	610
	Questions .....	610
